5. In addition, please submit to the Agency the following information for review:

- a) Cover letter clearly indicating what the proposed plan is for.
- b) Detailed information regarding any dimensions, calculations, water balance design, etc. and any other information used to determine the sizing of the retention control structure (i.e., lagoon, pits, etc.) for the proposed increased number and size of animals.
- c) Provide a complete updated copy of the Pollution Prevention Plan addressing each item found in the Oklahoma Concentrated Animal Feeding Operations Act at Title 2, 20-47 and 20-48 of the Oklahoma Statutes and Title 35:17-4-9 et.al, of the Oklahoma Concentrated Animal Feeding Operations rules. This may include, but is not limited to, the following: an Animal Waste Management Plan (AWMP), a Nutrient Management Plan (NMP), a Carcass Disposal Plan (CDP), or any other applicable changes that accounts for the proposed head increase.

6. If increasing the size of your operation will include construction activities (dirt work) and the cumulative soil disturbance is one acre or more, you are required to submit to ODAFF a Notice-of-Intent (NOI) application for storm water discharges associated with construction activities. To receive an Agriculture Pollutant Discharge Elimination System (AgPDES) Storm Water Discharge Construction General Permit, please complete the form found at <http://ag.ok.gov/aems/agpdesconstructionnoi.pdf>, include a \$316 fee payment, and submit the documents to the ODAFF AEMS Division.

For more information on the AgPDES Construction General Permit please review the fact sheet at <http://ag.ok.gov/aems/agpdesconstructionfaq.pdf>.
