Contact us for:

Certificates of Veterinary Inspection	25 CVIs/pad - \$7.00/pad + shipping	CC # and NVAP # required
Swine Test Charts	N/C	
Trichomoniasis Quarantine Forms	N/C	Livestock Auction Market Veterinarians only
Livestock Market Slaughter Only tags	N/C	Livestock Auction Market Veterinarians only

Contact the ODAFF Serology Lab at 405-522-5449 for: Silver Brite (NUES) tags, Orange Calhhood Vaccination tags, Tuberculin

Contact our USDA office at 405-751-1701 (Oklahoma City office) or 501-224-9515 (Little Rock, AR office) for: International Health Certificate forms, Brucellosis Test Charts, TB Test Charts, EIA Test Charts, OCV Tattoo Shields, Scrapie Tags, Livestock Market 4-54 Forms, Livestock Market Back Tags and Glue

The Oklahoma USDA Veterinary Services office is home to National Import Export Services and the Little Rock office is home to Surveillance, Preparedness, and Response Services. You can call the Oklahoma office for the above listed forms and supplies and any questions about International animal import or export. For Accreditation questions, please contact Deb Hicks, deb.l.hicks@aphis.usda.gov 501-224-9515. Either office will help you contact the appropriate person and place if you inadvertently call the incorrect number.

Import requirements for other states may be accessed from a page on our website. The link is: <http://www.ag.ok.gov/ais/stateentryreq.pdf> . This page has the import requirements/permit phone number for each state as well as a link to their web site with their import requirements. These phone numbers and web addresses change from time to time but we attempt to keep them up to date to give practitioners a quick, easy resource to use when helping your clients ship animals to other states.

For State Import Requirements the web site www.interstatelivestock.com is another option that will assist you in obtaining information to help you clients move animals across state lines.

The following link will take you to our web page with Traceability information: <http://www.ag.ok.gov/ais/traceability.htm> .

It has a link to a document that lists all the different types of ID that are considered official for each species of livestock.

Animal Industry Services is here to protect the livestock and the livestock industry of Oklahoma and to assist our livestock producers to be successful. We believe that veterinary practitioners are our partners in fulfilling this duty and we want to assist the practitioners as much as possible. Please call us if we can help answer questions, assist in client education, or anything else to help you help your clients.

More and more options are becoming available for doing Certificates of Veterinary Inspection and other regulatory paperwork electronically. The mCVI app allows practitioners to complete CVIs on iPhones, iPads, Android phones, and Android tablets. New Planet Technologies has a new easily used electronic CVI which adds to the choices practitioners already have with Global VetLINK, VSPS, mCVI, and the Oklahoma eCVI. If you have an interest in learning about these ways to help you be more efficient, please give Dr. Gorczyca a call.

We occasionally send emails with disease updates, new program information, and other pertinent information. If you would like to receive these updates please send your email address to rod.hall@ag.ok.gov so we can include you in the outreach.
