### LIVESTOCK

Packers were aggressive last week with the largest harvest week since January 1978, 791,000 head were processed during the week. Packers have slowed the chains slightly this week but margins are still attractive enough for them to work a full schedule. Concerns about the impending opening of the boarder helped push asking prices down, trading Wednesday was \$1.00-2.00 lower at \$78.00. \$2.00-3.00 lower in Nebraska at \$124.00.

All tests in Canada have been completed and no other cases of BSE were found. The USDA is waiting for the release of a third party report before fully beginning negotiations on opening the U.S./Canadian border to beef products and cattle. Early ideas that limited trade would resume this week have been pushed back.

Beef prices have pulled back from record levels. Packer margins are still very good. Compared to last week Light Choice carcasses closed Tuesday at \$146.85/cwt. down \$3.10. Light Select carcasses closed at \$130.82.

Feeder cattle markets began to follow the slaughter cattle market down with prices steady to a few dollars lower at area auctions. Quality was also a factor on lower prices with better cattle continuing to receive good bids. Trade was active with many producers going to market prior to the reopening of the U. S. / Canadian border. Spotty rains have kept stocker buyers cautious ahead of summer.

Pork demand continues to benefit from its discount to beef with pork features increasing at the retail level. Iowa/Southern Minnesota hot carcass value at midday Wednesday saw 185 lbs. carcass range from \$56.75-67.50 weighted average \$65.76.

**Wheat**

Harvest progressed in spurts this week with scattered rains keeping many combines out of the field. As of last weekend only 20 percent of the crop was in the bin and progress was slowed due to rains on Tuesday of this week. Quality has been very good on harvested wheat with most test weights in the high 50's low 60's. The USDA's production report released Wednesday was bearish with over 1 billion bushels added to the carryover for this year. Wheat prices were 12 to 15 cents higher at state elevators for the week at the close Tuesday. Corn plantings continue to progress in the Eastern Corn Belt but private analysts anticipate over 1 million acres will go unplanted to corn. A lack of demand helped push corn stocks higher than estimated, giving the corn market a bearish note. Soybean markets will follow corn and wheat for the near term with no real news of its own to carry trading.

**OKLAHOMA HAY REPORT  
(6-5-03)**

**ALFALFA HAY:** Trade moderate. Demand light to moderate. Prices steady. Some sellers remain reluctant to part with hay at current offers. Rains moved across the state by the end of the reporting week putting a halt to all harvest activities. Rain totals varied from several tenths to several inches. If rains continue as forecasted wheat harvest should resume next week all across the state.

**GRASS HAY:** Trade light. Demand light. Prices steady. Cutting and baling was starting to increase prior to recent rains. Moisture has improved in spots but continues to be inches behind normal. To be listed in or for a copy of the Oklahoma Hay Producer directory call 1-800-580-6543. The directory may be accessed online at [www.madeinoklahoma.net](http://www.madeinoklahoma.net) 24 hours a day.

**OKLAHOMA RANGE SALES REPORT  
(6-10-03)**

Confirmed: 18,450 head. Last week: 14,000 head. Last year: 6750.

Compared to last week: Trade was active on steers light on heifers. Demand was good. Interest in forward contracts delivering in late summer was very good. Feeder steers steady to 2.00 higher. Feeder heifers 1.00 higher. The continued strength of the market has prompted many producers to go ahead and market their cattle. Scattered rains slowed wheat harvest giving producers the chance to move cattle. Active feedlot clearance and continued strong beef demand are boosting prices.

Sales this week were confirmed on 16,725 steers and 1735 heifers. 48% of this week's sales were for current delivery. Yearlings made up 100% of the week's confirmed sales. Heifers comprised 10% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

# OKLAHOMA MARKET REPORT

2800 N. Lincoln Blvd., Oklahoma City, OK 73105

June 25, 2003 Vol. 51, No. 25

ADDRESS SERVICE REQUESTED

ATTENTION SUBSCRIBERS: Due to budget cuts at the Oklahoma Department of Agriculture, Food, & Forestry this will be the last weekly printing of the Oklahoma Market Report. Starting July 9, 2003 this report will be printed bi-weekly. The report will be available weekly online at <http://www.oda.state.ok.us/main/srvs/agform/mktrpt.pdf> in order to continue to serve livestock, hay and grain producers.

U.S. cattle on feed totaled 10.53 million head, down 4 percent from June 1, 2002 and 6 percent below June 1, 2001. May placement totals were 1 percent higher than 2002 and 3 percent below 2001 at 2.30 million. Fed cattle marketings numbered 2.23 million during May, 3 percent above last year and 1 percent above 2001. Total numbers of cattle on feed in Oklahoma on June 1 was 360,000 head, up 6 percent from last year. The 98,000 head placed in May was 31 percent higher than the same period last year. May marketings were down 8 percent from last year at 67,000 head. The fed cattle trade was virtually untested this week but a much weaker undertone was apparent with bids mostly \$2.00-2.50 lower than last week's trade. Trade is expected to turn more active near the end of the week as packers appear short bought. Boxed beef prices continued trending dramatically lower with Light Choice carcasses declining \$15.42 on the week at \$133.58/cwt.

Pork demand continues to decline with the retail price of meat being lowered. Iowa/Southern Minnesota hot carcass value at midday Wednesday saw 185 lbs. carcass range from \$54.25-65.25 weighted average \$59.75.

**Wheat**

Spotty rains have delayed harvest in various parts of the state. Quality of the wheat has been extremely good with most test weights in the high 50's to low 60's. Wheat prices were 10 to 12 cents lower at state elevators for the week at the close Tuesday. Wheat harvest is approximately 80 percent finished. Rains in the midwest are making the corn and soybean crops look favorable indicating no future changes with the low corn prices. Short term supply of soybeans have been favorable for the market allowing prices to keep rising.

**OKLAHOMA HAY REPORT  
(6-19-03)**

**ALFALFA HAY:** Trade moderate to moderately active. Demand was good for premium dairy quality hay, moderate for other offerings. Prices were firm for premium quality, steady for all other grades. The occasional higher prices noted in this report were said to reflect some higher quality second cutting hay. Second hay is virtually completed. Dry weather and warmer temperatures have returned to the state and wheat harvest is proceeding rapidly.

**GRASS HAY:** Trade light to moderate, but pace is expected to increase in the next two weeks. Demand light to moderate. Buyer inquiry has improved recently. Meadows benefited from recent rainfall and current warm temperatures. To be listed in or for a copy of the Oklahoma Hay Producer directory call 1-800-580-6543. The directory may be accessed online at [www.madeinoklahoma.net](http://www.madeinoklahoma.net) 24 hours a day.

## NEWSPAPER

Cattle trade has been slow this week, the last fully established market was last week with dressed sales at 119.00-120.00 and live sales at 75.00. A holiday has shortened the slaughter week and weakness in boxed beef prices have diminished packer demand. Boxed beef prices have been volatile closing this week at 125.82/cwt down \$2.05 from last week. It is hoped the demand for beef will pick up and be sustained after the 4th of July weekend. Feeder cattle prices still continue to rise with limited supply. Low corn prices are also helping prolong the demand for feeder cattle.

Pork demand has risen this past week. Iowa Sothern Minnesota hot carcass value at midday Wednesday saw 185 lbs. carcass range from 51.00-62.00

**Wheat**

Wheat prices have held steady this week closing Wednesday, 2 cents higher than last week. Dry and warm weather has allowed for harvest to move along at a rapid pace with most of the state's wheat grain in the bin. Kansas wheat crop is 47 percent harvested. Good growing weather in the Midwest shows signs that corn and soybean crops could have record yields.

**OKLAHOMA HAY REPORT  
(6-26-03)**

**ALFALFA HAY:** Trade moderate to light. Demand was good for premium dairy quality hay, moderate for other offerings. Prices were firm for premium quality, steady for all other grades. Rains in the state have reduced cuttings of premium quality hay. Wheat harvest is approximately 80 percent finished with farmers busy working ground or currently putting up hay when the weather has been open.

**GRASS HAY:** Prices have been fully steady with light trading, but the pace is expected to continue to increase in the next week. Demand light to moderate. Buyer inquiry is expected to improve in the coming month. Meadows continue to benefit from more recent rains and current warm temperatures.

All prices are from most recent sales:

**ALFALFA:**

**CENTRAL AND WESTERN OKLAHOMA:** Premium quality large squares new crop 80.00-110.00. Small squares 115.00-125.00 per ton. Wheat hay in large round bales 45.00-55.00 a ton.

**PANHANDLE AND WESTERN FEEDLOT AREA:** Good grinding alfalfa at the edge of the field or bale pile (spot) 55.00-65.00 a ton. Chopped and delivered to feedlots (short haul) 85.00-90.00 per ton.

**OKLAHOMA RANGE SALES REPORT  
(7-1-03)**

Confirmed: 4850 head. Last week: 7775 head. Last year: 3870.

Compared to last week: Feeder steers and heifers firm to 2.00 higher. Calf market not well tested. Demand good for feeder cattle despite the lower slaughter cattle and beef markets. Feed yards continue to move cattle even at lower money to stay current. With the very current status of the feedlots and less available numbers of feeder cattle, a simple matter of supply and demand have become the driving force behind the higher feeder prices.

Sales this week were confirmed on 6779 steers and 2444 heifers. 63% of this week's sales were for current delivery. Yearlings made up 95% of the week's confirmed sales. Heifers comprised 26% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**Wheat**

Wheat harvest has wrapped up in Oklahoma and is well on its way in the Northern parts of the U.S. Yields are reported to be extremely good throughout most areas. Wheat was steady to 4 cents higher at state elevators this week closing on Wednesday in the range of 2.61-2.75 per bushel. Much needed rains should benefit corn and soybeans in the Midwest.

Wheat harvest has moved forward at a rapid pace with most farmers finished with focus on working ground or currently putting up hay.

**GRASS HAY:** Prices have been fully steady with light trading, but the pace is expected to increase as dryer weather may be setting in. Demand light to moderate. Buyer inquiry is expected to improve in the coming month. Meadows have benefited from recent rains but current warm temperatures may cause meadows to dry up.

**Wheat**

Wheat prices rose 8-10 cents higher this week at state elevators. Some export sales this past week have taken place with Japan returning to our market buying 80,000 tons of U.S. wheat.

Corn crop conditions in the midwest continue to look favorable. One more good rain this month would be ideal for high yields. The soybean market this past week has been mixed with prices closing on Wednesday at state elevators 20-30 cents lower than last week.

**OKLAHOMA HAY REPORT  
(7-10-03)**

**OKLAHOMA RANGE SALES REPORT  
(7-22-03)**

Confirmed: This week: 7625 Last week: 5875 Last year: 11600

Compared to last week: Feeder steers and heifers steady to 1.00 higher. Demand good for feeder cattle. Demand for calves moderate as most waiting for rain before doing further business. Many grass cattle have moved to feedlots and numbers of feeder cattle are expected to decline. Cattle inventory out last week and total numbers less than last year. Beef replacement heifer numbers were unchanged from a year ago and this is evidence that cattlemen have yet to start rebuilding the herd.

Sales this week were confirmed on 5,894 steers and 1,735 heifers. 52% of this week's sales were for current delivery. Yearlings made up 83% of the week's confirmed sales. Heifers comprised 22% of supply. Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**Wheat**

Wheat prices are holding steady this week at state elevators. Australia wheat stocks are down 28%. Export sales this past week have taken place with South Korea purchasing 21,000 tons of U.S. wheat. The soybean market closed Wednesday 20-30 cents lower. Rains in the midwest making the corn crop look favorable. Scattered rains received throughout the state have helped out summer crops with some areas receiving 0.5 to 1 inch, but more rain is needed. Topsoil and subsoil moisture levels continue to decline.

**OKLAHOMA HAY REPORT  
(7-24-03)**

**OKLAHOMA RANGE SALES REPORT  
(7-29-03)**

Confirmed: This week: 5625 Last week: 7625 Last year: 7350

Compared to last week: Feeder steers and heifers 1.00-2.00 higher. Steer and heifer calves not well tested. Demand good for feeder cattle but many cattle already sold or moved to the feedlots. Hot dry weather along with high cattle prices has caused many cattle to move to market. This week's numbers include very little current deliveries. Summers heat has many cattle making little to no gains and some contract cattle showing up about 50 lbs. under contracted weight. No relief in sight and forecasters already saying July will go down as one of the driest.

Sales this week were confirmed on 4,227 steers and 1,407 heifers. 35% of this week's sales were for current delivery. Yearlings made up 96% of the week's confirmed sales. Heifers comprised 26% of supply. Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**Wheat**

Wheat prices are 10-15 cents higher this week at state elevators. Recent export sales with Europe and poor weather hitting the Canadian crop have caused the market to gain some momentum. Corn crop conditions in the midwest continue to look favorable. The soybean market continued to decline 20-30 cents lower this week at area elevators.

**OKLAHOMA HAY REPORT  
(7-29-03)**

**OKLAHOMA RANGE SALES REPORT  
(8-5-03)**

Confirmed: This week: 3770 Last week: 5625 Last year: 7825

Compared to last week: Trade very slow. Feeder steers and heifers firm to mostly 1.00 higher. Demand good for limited supplies of feeders. Steer and heifer calves not well tested. Limited showers around the state will have some lucky farmers back in the field working ground as wheat/rye pasture planting is now only weeks away. Feeder market continues on a big upswing and buyers and sellers alike finding it hard to keep up. The bulls dominated the cattle market for the largest part of July. The last 2 weeks has brought a 7.00 dollar raise in the slaughter cattle market. The feeder market at Oklahoma City for the month of July advanced 3.00-5.00 dollars on increased numbers. Boxed beef prices also showing the positives with a 7.00-8.00 dollar raise.

Sales this week were confirmed on 2396 steers and 1372 heifers. 96% of this week's sales were for current delivery. Yearlings made up 92% of the week's confirmed sales. Heifers comprised 36% of supply. Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**Wheat**

Wheat prices are unstable this week with markets closing on Wednesday in the range of 3.36-3.50 at state elevators. Corn prices rose another 6-7 cents this week. The intensity of this late summer heat wave brings back memories of 1995-96 summer, with some hope that corn and coarse grains could have good export capabilities. This year's Chinese corn crop looks to be in good shape; and they possibly will be strong competitors for export business. The soybean market was 32-34 cents higher this week at

**OKLAHOMA HAY REPORT  
(8-14-03)**

**ALFALFA HAY:** Trade slow. Prices are steady. Demand was light to moderate for all offerings. High temperatures and dry weather continue in the north-western part of the state while other areas of Oklahoma have received scattered showers. The scattered rains have helped with alfalfa crops, but the need for rain continues. Alfalfa yields continue to be light.

**GRASS HAY:** Trade at a near standstill with very-light demand. Prices are steady. Severe drought continues in several areas. All parts of the state in great need of sub-moisture. Prairie hay cuttings have come to a halt due to the dry pastures. Hay supplies are ample for producers at this time, many producers still are holding their hay for higher prices.

All prices are from most recent sales:

**OKLAHOMA HAY REPORT  
(9-4-03)**

ALFALFA HAY: Demand is moderate for alfalfa hay with prices remaining steady. The state received 1.5-5 inches of rain statewide, putting an end to drought for many alfalfa producers. Few areas saw enough rain to make a difference in pond levels. Producers continue to move lightweight cattle where water is running short. Many producers getting ready for wheat planting.

GRASS HAY: Trade at a standstill with very light demand continuing. Much of pastures and meadows have received much needed rainfall, but in some areas sub-moisture is still needed. Producers continue to hold hay from early cuttings for higher prices.

All prices are from most recent sales:

**OKLAHOMA HAY REPORT  
(9-11-03)**

**OKLAHOMA RANGE SALES REPORT  
(9-16-03)**

ALFALFA HAY: Demand is moderate for alfalfa hay with prices 5.00-10.00 higher. Much needed rain has moved through most regions of the state this week but more rain is needed. Hay cuttings and baling has come to a halt in most places. Many producers preparing wheat ground for fall planting and in some instances producers are already planting for early grazing purposes. Producers continue to leave hay in storage for the anticipation of higher prices.

Sales: This week: 3165 Last week: 2515 Last year:6375

Compared to last week: Feeder steers and heifers 2.00 higher. Demand good but supplies limited. Interest is good for forward contracts but most farmers major concern now is sowing wheat. Pricing cattle has been very difficult as the cattle market continues to rise from week to week.

GRASS HAY: Trade at a standstill with very light demand continuing. Much of pastures and meadows have received much needed rainfall, but in some areas sub-moisture is still needed. Many producers are not taking the time to work with cattle as they are preparing for the planting of fall crops. Producers continue to hold hay from early cuttings for higher prices.

Sales this week were confirmed on 2,957 steers and 208 heifers. 46% of this week's sales were for current delivery. Yearlings made up 55% of the week's confirmed sales. Heifers comprised 7% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA HAY REPORT  
(9-18-03)**

ALFALFA HAY: Demand is moderate for alfalfa hay with prices remaining steady. Scattered light showers continue to fall throughout the state, but more rain is needed in most regions of western Oklahoma. Some producers are cutting their fourth and fifth cuttings of alfalfa hay, but in most areas farmers are busy planting wheat. More moisture needed in order for producers to have good wheat pasture prospects. Producers are still leaving hay in storage for the anticipation of higher prices.

GRASS HAY: Trade at a standstill with very light demand continuing. Many pastures and meadows have received much needed rainfall, and some producers have gotten a second grass hay cutting in some areas. Many of the pastures in western Oklahoma, still in need of sub-moisture with all water levels in ponds still low.

Producers continue to hold hay from early cuttings for higher prices.

All prices are from most recent sales:

(9-23-03)**

Oklahoma Hay Report

Sales: This week: 2775 Last week: 1045 Last year: 3525

**ALFALFA HAY:** Demand is slow to moderate for hay this week with prices remaining steady. Farmers are busy in most areas planting winter wheat. Scattered rains have moved through the state leaving most producers in good shape for wheat pasture prospects. Producers are still leaving hay in storage for the anticipation of higher prices.

Compared to last week: Trade quiet this week as feeder markets adjust lower. Feeder steers and heifers steady to 2.00 lower. Farmers continue to show little interest in calves. Most wheat just in the ground and farmers now working the math for wheat calves. Good general rains falling in western Oklahoma and giving a much needed boost to already planted wheat.

**GRASS HAY:** Trade at a standstill with very light demand continuing. Many pastures in western Oklahoma, have received much needed rain in the state, however water levels in ponds are still low in many places. Producers continue to hold hay from early cuttings for higher prices.

Sales this week were confirmed on 2356 steers and 411 heifers. 34% of this week's sales were for current delivery. Yearlings made up 83% of the week's confirmed sales. Heifers comprised 15% of supply.

All prices are from most recent sales:

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA HAY REPORT  
(10-2-03)**

**OKLAHOMA RANGE SALES REPORT  
(10-7-03)**

ALFALFA HAY: Demand is slow o moderate for hay this week with prices remaining steady. Farmers are busy in most areas planting winter wheat. Scattered rains continue to move through the state leaving most producers in good shape for wheat pasture prospects. A great portion of the wheat is already in the ground in most areas. Cloudy and damp weather has slowed some producers from being in the field currently. Producers are still leaving hay in storage for the anticipation of higher prices.

GRASS HAY: Trade at a standstill with very light demand continuing. Many pastures in western Oklahoma, have received much needed rain in the state, temperatures throughout the state starting to cool down. Producers continue to hold hay from early cuttings for higher prices.

All prices are from most recent sales:

**OKLAHOMA HAY REPORT  
(10-9-03)**

**OKLAHOMA RANGE SALES REPORT  
(10-14-03)**

ALFALFA HAY: Hay trade and demand is slow this week with prices remaining steady. Many farmers have most of their wheat in the ground, with continued moisture making wheat pasture prospects throughout Oklahoma very favorable. Heavy rains in Western Oklahoma will most likely keep producers out of the field for the next few days. Cooler temperatures slowing the growth process of alfalfa hay, leaving the last cuttings in most areas with small yields. Producers are still leaving hay in storage for the anticipation of higher prices.

GRASS HAY: Trade at a standstill with very light demand continuing. Many pastures in western Oklahoma, have received much needed rain in the state, temperatures throughout the state starting to cool down. Producers continue to hold hay from early cuttings for higher prices.

All prices are from most recent sales:

**ALFALFA:**

CENTRAL AND WESTERN OKLAHOMA: Premium quality large squares new crop 100.00-130.00, mostly 95.00-115.00 per ton. Small squares 95.00-115.00 per ton. Good quality new crop large squares 85.00-95.00, small squares 80.00-95.00/ton. Good large rounds 70.00-85.00. Fair quality large squares 60.00-80.00 per ton. Fair large rounds 60.00-70.00 a ton. Wheat hay in large round bales 40.00-50.00 a ton.

**PANHANDLE AND WESTERN FEEDLOT AREA:**

Good grinding alfalfa at the edge of the field or bale pile (spot) 70.00-80.00 a ton. Chopped and delivered to feedlots (short haul) 85.00-90.00 per ton.

**GRASS HAY:**

CENTRAL AND EASTERN OKLAHOMA: Premium quality large squares 70.00-80.00 a ton, small squares 70.00-80.00 per ton. Good quality small squares 60.00-70.00 per ton. Premium quality large rounds 30.00-45.00. Good quality large rounds 25.00-30.00 per ton. Fair quality 20.00-30.00 per ton.

Sales: This week: 4925 Last week: 2800 Last year: 2200

Compared to last week: Feeder cattle and calves not well tested as bulk of the sales for forward delivery. Feeder cattle are pretty well cleaned up in the country or farmers are opting to market their cattle at area sale barns. Interest for contracting calves for spring feeders is very good, despite the large discount of out front months to the current cash market. Stocker operators are leery of this record level market and are aware that what goes up will eventually go down. Contract prices extremely varied as many of the cattle were contracted mid week last week. Since then, there has been three days of 1.50 up moves in the cattle futures.

Sales this week were confirmed on 4038 steers and 891 heifers. 18% of this week's sales were for current delivery. Yearlings made up 96% of the week's confirmed sales. Heifers comprised 18% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA HAY REPORT  
(10-16-03)**

**OKLAHOMA RANGE SALES REPORT  
(10-21-03)**

ALFALFA HAY: Hay trade slow to moderate with prices steady to 10.00 higher in most areas. Wheat pasture prospects continue to look good throughout the state. Interest for contracting calves for spring feeders is very good. Throughout the state light weight stocker cattle prices were 6.00-10.00 higher this week, with wheat pasture right around the corner. Producers are still leaving hay in storage for the anticipation of higher prices.

GRASS HAY: Trade continues to be at a standstill with very light demand. Many pastures in western Oklahoma, have received much needed rain in the state, temperatures throughout the state starting to cool down. Producers continue to hold hay from early cuttings for higher prices.

All prices are from most recent sales:

**ALFALFA:**

**CENTRAL AND WESTERN OKLAHOMA:** Premium quality large squares new crop 110.00-125.00, mostly 115.00-125.00 per ton. Small squares 110.00-125.00 per ton. **GRASS HAY:**

Sales: This week: 4850 Last week: 4925 Last year: 5350

Compared to last week: Feeder cattle and calves not well tested for current delivery, few trades firm. Demand good for calves as warm weather has boosted wheat pasture growth. Some much needed rains in the forecast for the up coming weekend. Interest in spring delivery feeders remains good but pricing is difficult as cattle futures continue to make a daily decline.

Sales this week were confirmed on 2,443 steers and 2,108 heifers. 51% of this week's sales were for current delivery. Yearlings made up 60% of the week's confirmed sales. Heifers comprised 43% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

This week wheat prices in Oklahoma closed on Wednesday with state elevators ranging from 3.38-3.58 per bushel. Grain and soybean prices were higher this week at state elevators. Wheat plantings and emergence are well ahead of average across the state.

**OKLAHOMA HAY REPORT  
(10-23-03)**

**ALFALFA HAY:** Hay trade slow to moderate with prices remaining steady. Wheat pasture prospects continue to look good throughout the state. Farmers are taking advantage of lower cattle prices and starting cattle on winter wheat. Producers are still leaving hay in storage for the anticipation of higher prices.

**GRASS HAY:** Trade continues to be at a standstill with very light demand. Temperatures have been warm for October, fall showers and cooler weather is expected this coming week. Producers continue to hold hay from early cuttings for higher prices.

All prices are from most recent sales:

**Grain Report**

Wheat prices continued to increase this week. In the future it looks like China will be signing a contract to purchase approximately 1 million metric tons which may continue to drive the market up. Despite the optimism reflected in recent highs many traders believe the market needs to be fed with continued export demand. Soybean prices continue to be mixed. State elevator soybean prices ranged from 6.97-7.30 per bushel. Corn prices were higher this week with milo prices seeing a slight decline.

**OKLAHOMA HAY REPORT  
(11-06-03)**

**ALFALFA HAY:** Hay trade has been moderate with prices remaining steady. Many producers have finished up with final cuttings in alfalfa fields. Late cuttings of hay continue to be short, many producers believe prices will start going up as winter gets closer. Farmers continue to start cattle for winter wheat. Many producers needing moisture so wheat will continue to grow. Rain predicted in the forecast this coming week. Producers are currently leaving hay in storage for the anticipation of higher prices.

**GRASS HAY:** Trade continues to be at a standstill with very light demand. Cool temperatures have reached the state. Producers continue to hold hay from early cuttings for higher prices.

**Grain Report**

Wheat prices this week have had a sharp decline after a previous two week rally in the market. State elevator wheat prices were 30 cents lower this Wednesday with prices in the range of \$3.32-\$3.55. More trade is expected to take place in the coming week. Weekly export sales came in at 1.095 million metric tons versus trade expectations of 500-800 thousand tons. Analyst hope the market will pick up momentum again next week. Soybean, milo and corn prices have also lowered this week. Traders are expected to take advantage of lower commodity prices. Many producers are hopeful we will see a change with higher prices this coming week.

**Grain Report**

Wheat prices have moved back up over the past two weeks. State elevator wheat prices on Wednesday were in the range of \$3.82-\$4.09. It is hoped trade will continue with the weak U.S. dollar. USDA weekly export sales came in at 892 thousand metric tons which was higher than estimates of 600 to 800 metric tons. England, Argentina and Russia have all cut grain production estimates even more than they predicted a month ago. Every bushel erased from their balance sheets enhances the U.S. export potential. Compared to two weeks ago soybean, milo and corn markets are once again higher.

**OKLAHOMA HAY REPORT  
(11-13-03)**

*Hay report from two weeks ago due to the Thanksgiving Holiday. Report will start being updated again next week.*

**ALFALFA HAY:** Hay demand is light with prices 10.00-15.00 lower. Cooler temperatures are on the way; and many farmers continue to start cattle on winter wheat. Hay producers hope those who are starting cattle will spark some interest in hay buying. Much needed rain has been welcomed in western and central Oklahoma, with more rain predicted in the forecast this coming week.

**GRASS HAY:** Trade continues to be at a standstill with very light demand. Cool temperatures have reached the state. Producers continue to hold hay from early cuttings for higher prices.

All prices are from most recent sales:

**OKLAHOMA RANGE SALES REPORT  
(12-2-03)**

Sales: This week: 2815 Last week: 975 Last year: 3325

Compared to last week: Feeder cattle and calves not well tested. Majority of the sales contracted for spring delivery. Calf trade quiet. Many farmers opting to sell at local auction barns where demand for calves is extremely good. Interest for forward contracting spring feeders remains good. In this volatile market some would rather lock in a profit instead of playing the game and risking the loss. Current sales of feeder cattle remain extremely light as many cattle were marketed at least a month ahead of schedule to take advantage of the record level prices.

Sales this week were confirmed on 1713 steers and 1100 heifers. 2% of this week's sales were for current delivery. Yearlings made up 100% of the week's confirmed sales. Heifers comprised 39% of supply. Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**Feeder Steers:** Medium and Large 1 Current delivery 800 lbs 102.50; Mar delivery 800 lbs 92.50; May delivery 750-800 lbs 90.00-90.50; Basis trade Mar delivery 800 lb northern blacks even the March board (seller to select date of March close to determine price). Medium and Large 1-2 March delivery 750 lbs 90.00-92.00; 800 lbs 89.00.

**Feeder Heifers:** Medium and Large 1 May delivery 700 lbs 89.50.

**Grain Report**

Wheat prices have have slightly moved back down this week. State elevator wheat prices on Wednesday were in the range of \$3.64-\$3.85. Argentina's wheat harvest is about half finished , about a week ahead of normal. French state grain board members lowered soft wheat production down slightly, but raised ending stock projections and cut exports. The EU wheat imports from the United States and Canada were raised this week by 900,000 tons. It also is projected that South Korea will have some interest for US wheat. Milo in the state saw a small decline in price this week with the soybean and corn markets holding steady with last weeks trade.

**OKLAHOMA HAY REPORT  
(12-4-03)**

**ALFALFA HAY:** Hay trade is light to moderate with prices holding steady. Dry weather remains over most of the state. Mild weather has been helpful to farmers that continue to start cattle on winter wheat. Cooler temperatures are causing more hay to be fed, but farmers have ample hay at this time.

**GRASS HAY:** Cooler temperatures have caused demand to increase slightly. Producers continue to hold hay from early cuttings for higher prices.

All prices are from most recent sales:

**Grain Report**

Wheat prices closed this week with prices holding steady. State elevator wheat prices on Wednesday were in the range of \$3.56-\$3.76. USDA weekly export sales came in well above expectations at 1.012 million metric tons. The trade estimates were from 500-850 thousand metric tons. China has returned to buying wheat from the U.S. It looks like exports were also routine this week with Japan buying 63 thousand tons and South Korea making a purchase of 43 thousand tons. Soybeans in the state saw a decline in price this week with the milo and corn markets holding steady with last weeks trade.

**OKLAHOMA HAY REPORT  
(12-11-03)**

**ALFALFA HAY:** Hay trade is light to moderate with prices holding steady. Dry weather remains over most of the state. Winter weather visited the state Tuesday with hopes of making some type of moisture available for farmers with winter wheat. Some regions in northwestern Oklahoma received 2-4 inches of dry snow causing little moisture to run off into wheat fields. Cooler temperatures are causing more hay to be fed, but farmers have ample hay at this time. Trading expected to pick up if western and central Oklahoma continue to stay dry.

**GRASS HAY:** Cooler temperatures have caused demand to increase slightly. Producers continue to hold hay from early cuttings for higher prices. Some producers starting to feed more grass hay in order to stretch wheat pasture.

All prices are from most recent sales:

**ALFALFA:**

**CENTRAL AND WESTERN OKLAHOMA:** Premium quality large squares new crop 100.00-110.00 per ton. Small squares 100.00-110.00 per ton. Wheat hay in large round bales 30.00-40.00 a ton.

**PANHANDLE AND WESTERN FEEDLOT AREA:**
