Nat'l Veterinary Accreditation Manual: https://www.aphis.usda.gov/animal_health/vet_accreditation/downloads/nvap_ref_guide.pdf

- For State Import Requirements the web site www.interstatelivestock.com is an option that will assist you in obtaining information to help you clients move animals across state lines.
- The following link will take you to our web page with Traceability information: www.ag.ok.gov/ais/traceability.htm . It has a link to a document that lists all the different types of ID that are considered official for each species of livestock.
- For **International exports** of animals, animal germplasm or animal products out of the United States from Oklahoma, contact the USDA APHIS VS Oklahoma export staff at servicecenter4@aphis.usda.gov or 405-751-1701 Monday – Friday 7:00am – 4:30pm.
- A handy resource for information on International Pet Import and Export is www.aphis.usda.gov/aphis/pet-travel . **Pets traveling to Mexico or Canada are considered to be International Movement.** Please keep in mind that Centers for Disease Control www.cdc.gov/importation/bringing-an-animal-into-the-united-states/index.html regulates the international importation of dogs, cats, bats, turtles, monkeys, civets, African rodents, and birds from foreign countries. CVI and Rabies vaccination is required to import dogs and cats into Oklahoma.
- For **International imports** of live animals, birds or germplasm, please contact National Center for Import and Export at email VS-Live.Animals.Import.Permits@aphis.usda.gov or call (301) 851-3300 option 2. Keep in mind that ODAFF requirements must be followed on livestock imported into Oklahoma.
- More options are becoming available for doing Certificates of Veterinary Inspection and other regulatory paperwork electronically. The AgView app (small charge) allows practitioners to complete CVIs on desktop computers, iPhones, iPads, Android phones, and Android tablets. GlobalVetLINK (fee involved) is easy to use for completing CVIs and EIA tests, in addition to making writing FDA's VFDs quick and easy. VSPS is available through USDA. It is only for Large Animals and has no charge attached to it. The Oklahoma eCVI is a fillable pdf form that must be attached to an email and sent to our office. If you have an interest in learning about these ways to help you be more efficient, please contact Dr. Gorczyca-Southerland.

We occasionally send emails with disease updates, new program information, and other pertinent information. If you would like to receive these updates please send your email address to rod.hall@ag.ok.gov so we can include you in the outreach.

Animal Industry Services is here to protect the livestock, the livestock industry, the producers of Oklahoma, and to help them be more successful. We believe that veterinary practitioners are our partners in fulfilling this duty and we want to assist them as much as possible. Please call us if we can help answer questions, assist in client education, or anything else to help you help your clients.
