OKLAHOMA HAY
(1-5-06)

Supplemental feeding is necessary in most areas due to lack of available forage. Producers looking for hay to purchase can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

OKLAHOMA RANGE SALES REPORT
(1-10-06)

Sales: This week: 3,165 Last week: 374 Last Year: 3,200

Compared to last week: Feeder cattle 1.00-3.00 lower. Demand for feeder cattle moderate. Available pen space is reduced as large numbers of feeder cattle and calves being placed in feedlots. No rain has wheat pastures in tough condition and farmers are forced to move cattle early. North central Oklahoma received up to 8 inches of snow over night and what a relief for those areas. Much of the state is still in desperate need of a hard rain for some run off water as many ponds are bone dry.

Supply consisted of 96% over 600 lbs. Heifers comprised 32% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY
(1-5-06)

ALFALFA HAY: Alfalfa hay movement is active and prices are steady. Unseasonably high temperatures and dry conditions continue to cover the entire state. No relief is in the weather forecast for the next week. Wheat pasture has stopped growing due to the dry conditions.

GRASS HAY: Grass hay movement is active and prices are steady. High winds and fires have continued to be a problem for livestock producers. Supplemental feeding is necessary in most areas due to lack of available forage. Producers looking for hay to purchase can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

OKLAHOMA RANGE SALES REPORT
(1-10-06)

Sales: This week: 3,165 Last week: 374 Last Year: 3,200

Compared to last week: Feeder cattle 1.00-3.00 lower. Demand for feeder cattle moderate. Available pen space is reduced as large numbers of feeder cattle and calves being placed in feedlots. No rain has wheat pastures in tough condition and farmers are forced to move cattle early. North central Oklahoma received up to 8 inches of snow over night and what a relief for those areas. Much of the state is still in desperate need of a hard rain for some run off water as many ponds are bone dry.

Supply consisted of 96% over 600 lbs. Heifers comprised 32% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY
(1-19-06)

ALFALFA HAY: Alfalfa hay movement is active and prices are steady to higher. The drought in Oklahoma continues with producers anxious for moisture. Some areas of the state received minimum amounts of rain in the north central and far southeast regions last week. Burn bans still exist in all counties throughout the state. Farmers and ranchers in most regions are downsizing cattle herds and taking advantage of good prices.

GRASS HAY: Grass hay movement is active and prices are steady. Supplemental feeding is necessary in most areas due to lack of available forage. Many producers are having to haul water to cattle because ponds have dried up in the Eastern regions of the state. Producers looking for hay to purchase can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

OKLAHOMA HAY
(1-26-06)

OKLAHOMA RANGE SALES REPORT
(1-31-06)

ALFALFA HAY: Alfalfa hay movement is active and prices are steady. Some areas of the state received some rain last week, however all regions are still in need of moisture. Burn bans still exist in all counties throughout the state.

GRASS HAY: Grass hay prices are steady and movement is active. Supplemental feeding is necessary in most areas due to lack of available forage. Cattle producers are continuing to pull wheat pasture cattle early due to the dry weather. Producers looking for hay to purchase can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

OKLAHOMA HAY
(3-16-06)

OKLAHOMA RANGE SALES REPORT
(3-14-06)

ALFALFA HAY: Alfalfa hay movement continues to be active and prices are mostly \$10.00 a ton higher. Wildfires continue to plague the state in all regions. Premium quality alfalfa and grinding hay is getting harder to locate. Producers continue to liquidate cattle and herds, hoping that rain will soon come.

GRASS HAY: Grass hay movement is active and prices are firm. Supplemental feeding continues for most livestock with many producers having to haul water in central regions of the state. Producers looking for hay to purchase can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

Sales: This week: 4638 Last week: 3428 Last Year: 10665

Compared to last week: Feeder cattle 2.00-3.00 lower. Feedlot demand moderate at best at these lower levels as feedlots remain very full. This the last week that cattle have to be off wheat before the Ides of March (the time that cattle should be off wheat pasture if the farmer so chooses to harvest grain) and numbers should slow and weights are expected to become lighter. Rain is again in the forecast for the weekend and if this were true would definitely lighten the spirits of everyone.

Supply consisted of 96% over 600 lbs. Heifers comprised 13% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

Summary for March 4, through March 14, 2006

OKLAHOMA HAY
(3-16-06)

OKLAHOMA RANGE SALES REPORT
(3-21-06)

ALFALFA HAY: Alfalfa hay movement continues to be active and prices are mostly steady with last week's trade. Producers in most areas of the state received 1 to 4 inches of much needed rain last week depending on location. Currently fire bans have been lifted in all areas leaving producers hopeful that more moisture will soon follow so spring pastures will start to grow.

GRASS HAY: Grass hay movement is active and prices are firm. Supplemental feeding continues for most live-stock. Farmers and ranchers are hopeful that fires will slow down so available forage will not be at risk for burning. Producers looking for hay to purchase can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

Sales: This week: 1660 Last week: 3975 Last Year: 6750

Compared to last week: Feeder cattle steady to 1.00 lower. Demand moderate as market continues to tumble. Feeder cattle supplies are limited, however few cattle remain and some of these would rather choose to wait for an improved market.

Spring storms are moving across the state and bringing some much needed rain, however when it comes to the wheat it may be too late. Some wheat pastures are beginning to head out but with very little growth so grain production could be light.

Supply consisted of 90% over 600 lbs. Heifers comprised 42% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA RANGE SALES REPORT
(4-18-06)

Sales: This week: 5128 Last week: 960 Last Year: 10,100

Compared to last week: Very limited trade last week but few sales of steers steady. Limited comparison of heifers 4.00 lower. Demand improved late in the trading period but only as numbers have declined. Wheat pasture stress is at an all time high as temperatures have soared to near 100 degrees. As hope for a harvest has diminished farmers are even wondering if there will be enough wheat to even bale. Temperatures are expected to be back in the 70's by mid-week but with very limited rainfall.

Supply consisted of 100% over 600 lbs. Heifers comprised 12% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

Producers looking for hay to purchase can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

Compared to last week: Trades quiet this week after the sharp decline last week followed by some recovery. Sellers now unsure where to price their cattle. Demand moderate to good as many buyers busy picking up previously contracted cattle. Many of the graze off cattle are already gone as dry weather forced many to move early.

Supply consisted of 100% over 600 lbs. Heifers comprised 39% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY
(5-25-06)

Producers in the northern regions are being slowed by harvest rains.

GRASS HAY: Grass hay movement is moderate and prices are steady. Producers continue to supplement cattle as pastures continue to lack normal spring growth. Producers looking for hay to purchase can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

OKLAHOMA HAY
(6-1-06)

OKLAHOMA RANGE SALES REPORT
(6-6-06)

ALFALFA HAY: Alfalfa hay prices are steady to higher and movement is moderate. Scattered rains over most the state have left large amounts of moisture in some areas while leaving other areas with minimal amounts of precipitation. First cutting of alfalfa are complete with producers having smaller yields than expected. Wheat harvest is nearing completion in the southwest and central regions of the state. Producers in the northern regions are being slowed by harvest rains.

GRASS HAY: Grass hay movement is moderate and prices are steady. Producers continue to supplement cattle as pastures continue to lack normal spring growth. Producers looking for hay to purchase can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

OKLAHOMA HAY
(6-22-06)

ALFALFA HAY: Alfalfa hay prices are steady to firm and movement is moderate to active. Beneficial rain has been received in some areas of the state, however hot dry temperatures have returned this week taking much of last weeks moisture. Producers are busy in the field working wheat ground and trying to bale third cuttings of alfalfa. Quantities at this time are limited, with cuttings being lighter due to the drought.

GRASS HAY: Grass hay movement is moderate and prices are steady to firm. Many producers are looking for hay to buy. Many hay meadows that have been cut are yielding a third to a half of normal. In some areas of the western part of the state there is not enough growth to cut at this time. Producers looking for hay to purchase can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

OKLAHOMA HAY
(7-6-06)

ALFALFA HAY: Alfalfa hay prices are firm and movement is moderate to active. Scattered rains have passed through the state this week leaving large amounts of moisture in some areas. Ranchers in the western and southern regions of the state are still drought stricken with the need for rain. Temperatures mostly in the high 90's in all areas of the state seem to deplete whatever moisture is received at a fast pace. Producers currently are baling third cuttings of alfalfa at this time with limited supplies in the field.

GRASS HAY: Grass hay movement is moderate to active and prices are steady to firm. Many producers are continuing to look for hay to buy. Producers looking for hay to purchase or have hay for sale can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

OKLAHOMA HAY
(7-13-06)

ALFALFA HAY: Alfalfa hay prices are firm and movement is moderate to active. Drought conditions still exist in all regions of the state, with hot dry temperatures in the record highs this past week. Many producers are continuing to look for hay to buy, while production cost at this time continue to be at high levels. Producers looking for hay to purchase or have hay for sale can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

OKLAHOMA HAY
(7-27-06)

ALFALFA HAY: Alfalfa hay prices are firm and movement is moderate to active. Drought conditions still exist in all regions of the state with hay inventories low at this time. Producers are hopeful Mother Nature will send some rain this coming weekend. Farmers and ranchers continue to bring hay in from Kansas or Missouri.

GRASS HAY: Grass hay movement is moderate to active and prices are steady to firm. Many producers are continuing to look for hay to buy. Pastures for grazing and forage at this time continue to look dry and depleted. Producers looking for hay to purchase or have hay for sale can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

OKLAHOMA RANGE SALES REPORT
(8-22-06)

ALFALFA HAY: Alfalfa hay prices are firm and movement is moderate to active. Drought conditions still exist in all regions of the state. Scattered rains continue to pass through the state, but most showers are spotty leaving producers hopeful more rain will soon come. Farmers and ranchers continue to bring hay in from Kansas or Missouri.

GRASS HAY: Grass hay movement is moderate to active and prices are steady to firm. Many producers are continuing to look for hay to buy. Pastures for grazing continue to be dry with low amounts of forage available. Many producers are hauling water due to having large ponds dry up. Producers looking for hay to purchase or have hay for sale can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

OKLAHOMA HAY
(8-24-06)

OKLAHOMA RANGE SALES REPORT
(8-29-06)

ALFALFA HAY: Alfalfa hay prices are firm to higher. Scattered rains passed through the state this week giving farmers and ranchers in most areas some relief. Many producers would continue to welcome more rain and cooler weather. Some producers are hopeful to get one more short cutting of alfalfa hay. Farmers and ranchers continue to bring hay in from Kansas or Missouri.

GRASS HAY: Grass hay movement is moderate to active and prices are firm to higher. Many producers continue to look for hay to buy. Rains last week have helped green up pastures in some areas but many producers continue to look for hay supplies for this coming winter. Farmers at this time are getting land in shape for fall wheat sowing. Producers looking for hay to purchase or have hay for sale can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

OKLAHOMA HAY
(9-14-06)

OKLAHOMA RANGE SALES REPORT
(9-19-06)

ALFALFA HAY: Alfalfa hay prices are steady to firm and movement is active. Scattered rains throughout the state have helped producers who have planted new alfalfa this past month. Producers in some areas have been successful with early wheat plantings, due to Mother Nature's help with the light rains.

GRASS HAY: Grass hay movement is moderate to active and prices are firm to higher. Hay inventories remain low. Pastures growth is starting to slow due to the shorter days and cooler temperatures. Producers looking for hay to purchase or have hay for sale can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

Sales: This week: None Last week: 4327 Last Year: 3838

Compared to last week: Feeder cattle and calves not established. Buyers busy taking delivery of previously contracted cattle and farmers busy in the field sowing wheat or cutting hay. Much of the state saw another round of moisture over the weekend with another front expected to push thru the state midweek. Northwestern Oklahoma missed out this round, however their rain bucket is not empty. Locally rainfall totals are still behind some 4 inches or so but we are ahead for the month by just over an inch.

Supply consisted of 0% over 600 lbs. Heifers comprised 0% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY
(9/28/06)

OKLAHOMA RANGE SALES REPORT
(10/3/06)

ALFALFA HAY: Alfalfa hay prices are steady to firm and movement is active. Producers at this time are opting for other forages due to lower cost available with grass, millet and pea hay. Livestock producers at this time are dealing with lower fuel cost making transportation more feasible for hay movement.

GRASS HAY: Grass hay movement is moderate to active and prices are firm to higher. Producers in some areas are starting cattle with the hope that Mother Nature will soon send some rain for the early wheat plantings. Parts of north central Oklahoma continue to be drought stricken leaving large areas of the state's wheat belt unplanted. Producers looking for hay to purchase or have hay for sale can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

OKLAHOMA HAY
(10/6/06)

ALFALFA HAY: Alfalfa hay prices are steady to firm and movement is active. Producers continue to look at other forages for feeding due to lower cost available with grass, millet and pea hay. Cooler damper weather moved into the state this past week, leaving small amounts of moisture. Producers in the northern central part of state continue to be dry and are hopeful moisture will come soon for wheat planting.

GRASS HAY: Grass hay movement is moderate to active and prices are firm to higher. Some producers are getting the last cuttings of grass hay stored for the winter. Hay supplies continue to be tight especially in the southern regions of the state. Producers looking for hay to purchase or have hay for sale can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

OKLAHOMA HAY
(10/12/06)

OKLAHOMA RANGE SALES REPORT
(10/17/06)

ALFALFA HAY: Alfalfa hay prices are firm with demand moderate. Fall weather has moved into the state with damper cooler temperatures. Most producers in northwestern and north central Oklahoma have planted their wheat crop with dryer than usual conditions. Farmers in the north would welcome the right rain, to help with current low sub-moisture amounts. Producers in the eastern part of the state have had much success with new plantings of alfalfa.

GRASS HAY: Grass hay movement is moderate to active and prices are firm to higher. Producers looking for hay to purchase or have hay for sale can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

OKLAHOMA HAY
(10/19/06)

OKLAHOMA RANGE SALES REPORT
(10/24/06)

ALFALFA HAY: Alfalfa hay prices are firm with demand moderate. Fall weather has moved into the state with damper cooler temperatures. Many producers are hopeful we will have wheat pasture to start stocker cattle in most regions.

Sales: This week: 670 Last week: 360 Last Year: 3284

GRASS HAY: Grass hay movement is moderate to active and prices are firm to higher. Producers looking for hay to purchase or have hay for sale can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

Compared to last week: Yearling cattle continue on the light side. Grain markets have driven the cash feeder cattle down to levels that the farmer is not willing to negotiate. Nice rains came to much of the state last week and sunshine has returned, wheat pastures are now coming along nicely.

Sales: This week: 1260 Last week: 670 Last Year: 4300

Compared to last week: Cattle trades in the country continue very light. Feeder cattle not well test but a definite lower undertone noted. Grain markets continue to control the feeder pricing and these levels are still dropping. Much of the wheat pasture is up but is still very short and can only handle very light weight cattle. More rain is needed for further growth in the wheat. Many heavier weight calves are either headed to the feedlot or grow yards.

Supply consisted of 100% over 600 lbs. Heifers comprised 20% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

*** Summary for Oct 21 through Oct 31, 2006 ***

Sales This week: 660 Last week: 350 Last Year: 4,450

Compared to last week: Feeder cattle once again lightly tested and not enough trades to test the trend. The weather has turned to winter quickly with an ice and snow storm last week, preceded in some areas by a good rain. This has resulted in some badly needed moisture but also cold, wet and windy weather that has stressed cattle and reduced movement. Supplies of feeder cattle continues to be light and those available are being held in firm hands. Supply consisted of 38% over 600 lbs. Heifers comprised 63% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

Summary for Nov. 24 thru Dec. 05, 2006

**OKLAHOMA HAY
(12/7/06)**

**OKLAHOMA RANGE SALES REPORT
(12/12/06)**

ALFALFA HAY: Alfalfa hay prices are firm with demand moderate. Alfalfa hay supplies are limited. Many producers have been supplementing wheat pasture with hay at this time. Most farmers and ranchers are currently looking at using other alternatives to alfalfa due to the current high hay prices. Most regions of western and central Oklahoma continue to be dry with lack of moisture.

GRASS HAY: Grass hay prices are steady to firm and movement is active. Producers looking for hay to purchase or have hay for sale can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

Sales: This week:1,950 Last week: 660 Last Year: 3,850

Compared to last weeks light test: Feeder cattle lightly tested on current trades and few sales 2.00-3.00 higher. Demand greatly improved for forward deliveries. The hopes of the corn market turning lower and feeders seem to me excepting these levels and changing the breakevens. Recent snow has greatly improve the soil moisture in the state, however a good rain is still needed for some runoff in to ponds. Unseasonably warm and dry temperatures in the forecast for the next 7 days.

Supply consisted of 82% over 600 lbs. Heifers comprised 19% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.
