OKLAHOMA HAY REPORT  
(01/05/11)

OKLAHOMA DIRECT FEEDER CATTLE SALES  
(12/30/10)

ALFALFA HAY: Alfalfa hay prices remain firm and movement remains moderate. Soil moisture conditions have continued to significantly decline with a limited chance of precipitation over the next week. Many producers continue to use hay that is normally sold to supply their own livestock with feed.

GRASS HAY: Grass hay prices are firm and movement remains moderate. Additional moisture is needed to improve small grain grazing potential and supply pond water for livestock. Problems with pastures and grasses are causing concern about hay supplies for the remainder of the season. Producers looking for hay to purchase or have hay to sell can access the hay directory on the Oklahoma Department of Agriculture's website at [www.oda.state.ok.us](http://www.oda.state.ok.us), or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality small squares 195-220 per ton, large squares 125.00-145.00 per ton, large rounds 120.00-135.00. Good quality small squares 155.00-175.00 per ton, large squares 115.00-125.00, large rounds 100.00-115.00. Fair quality large squares 90.00-110.00 per ton. Fair large rounds 80.00-95.00 a ton.

W H E A T H A Y:

CENTRAL AND WESTERN OKLAHOMA: Wheat hay in large round bales 55.00-75.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA: Good grinding alfalfa at the edge of the field or bale pile (spot) 80.00-100.00 a ton. Chopped and delivered to feedlots (short haul) 110.00-130.00 per ton.

GRASS HAY:

CENTRAL AND EASTERN OKLAHOMA: Premium quality small squares 120.00-140.00 per ton, large squares 75.00-95.00 a ton, large rounds 70.00-95.00. Good quality small squares 85.00-100.00 per ton, large rounds 50.00-75.00 per ton. Fair quality 45.00-60.00 per ton.

Feeder Cattle Weighted Average Report for 12/24-30/2010.

Confirmed: None Last Week: 2761 Last Year: 1335

Compared to last week: Feeder steers and heifers not tested this holiday week. Most all buyers taking a break for the holiday and no sales have been confirmed for the trading period. Weather remains dry and unseasonable warm.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT  
(01/12/11)

**ALFALFA HAY:** Alfalfa hay prices are firm and movement remains steady. Supplies are tightening with the continued dry weather. Very limited amounts of precipitation fell across the state this past week with nearly all of the state now ranging from abnormally dry to moderate drought on the US Drought Monitor index.

**GRASS HAY:** Grass hay prices are steady and movement remains moderate. Wheat and winter pasture continues to diminish due to the lack of soil moisture in most areas. Producers looking for hay to purchase or have hay to sell can access the hay directory on the Oklahoma Department of Agriculture's website at [www.oda.state.ok.us](http://www.oda.state.ok.us), or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

ALFALFA:

**CENTRAL AND WESTERN OKLAHOMA:** Premium quality small squares 195-220 per ton, large squares 125.00-145.00 per ton, large rounds 120.00-135.00. OKLAHOMA DIRECT FEEDER CATTLE SALES  
(01/07/11)

Feeder Cattle Weighted Average Report for 01/01-07/2011.

Confirmed: 5256 Last Week: None Last Year: 8445

Compared to the last test two weeks ago: No recent test of current trades on steers to test trends, however a firm undertone noted. Limited numbers of heifers 3.00 higher. Cattle futures moved sharply higher over the holiday break and cattle have responded accordingly. Weather continues very dry and unseasonably warm, however strong cold front is headed this way. For the most of next week much of the state will not be above freezing temperatures. Supply included 100 percent over 600 lbs; 57 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT  
(01/19/11)

ALFALFA HAY: Alfalfa hay prices remain firm and movement is moderate. Supplies continue to tighten, especially higher quality alfalfa. Limited amounts of precipitation fell across the state late this week. The entire state now ranges from abnormally dry to moderate drought on the US Drought Monitor index, with a small area of severe drought developing in central Oklahoma.

GRASS HAY: Grass hay prices are steady to firm and movement remains moderate. Winter pasture continues to diminish and grass hay supplies are beginning to tighten. Producers looking for hay to purchase or have hay to sell can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us, or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality small squares 195-220 per ton, large squares 125.00-145.00 per ton, large rounds 120.00-135.00. Good quality small squares 155.00-175.00 per ton, large squares 115.00-125.00, large rounds 100.00-115.00. Fair quality large squares 90.00-110.00 per ton. Fair large rounds 80.00-95.00 a ton.

WHEAT HAY:

CENTRAL AND WESTERN OKLAHOMA: Wheat hay in large round bales 55.00-75.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA: Good grinding alfalfa at the edge of the field or bale pile (spot) 80.00-100.00 a ton. Chopped and delivered to feedlots (short haul) 110.00-130.00 per ton.

GRASS HAY:

CENTRAL AND EASTERN OKLAHOMA: Premium quality small squares 120.00-140.00 per ton, large squares 75.00-95.00 a ton, large rounds 70.00-95.00. Good quality small squares 85.00-100.00 per ton, large rounds 50.00-75.00 per ton. Fair quality 45.00-60.00 per ton.

OKLAHOMA DIRECT FEEDER CATTLE SALES  
(01/14/11)

Feeder Cattle Weighted Average Report for 01/08-13/2011.

Confirmed: 7565 Last Week: 5256 Last Year: 12,250

Compared to the last week: Feeder steers 1.00-2.00 higher. Limited numbers of heifers from last week for a comparison but a higher undertone noted. Cattle futures continue to move higher with fat cattle trading at 108.00 at mid-week. Weather continues very dry after a strong cold front pushed through the state. Most of the state did not get above freezing until Thursday afternoon. Supply included 100 percent over 600 lbs; 27 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT  
(01/26/11)

ALFALFA HAY: Alfalfa hay prices remain firm and movement is steady. Supplies remain tight, as drought conditions continue to prevail. Limited scattered precipitation fell last week prompting the US Drought Monitor index across the state to remain the same with abnormally dry to severe drought areas across Oklahoma. Rising fuel prices are also becoming a factor in hay movement.

GRASS HAY: Grass hay prices are firm and movement remains steady. Cooler temperatures have given way to warmer weather along with continued dry conditions prompting burn bans and fire alerts across the state. Winter pasture conditions remain bleak and grass hay supplies continue to tighten. Producers looking for hay to purchase or have hay to sell can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us, or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality small squares 195-220 per ton, large squares 125.00-145.00 per ton, large rounds 120.00-135.00. Good quality small squares 155.00-175.00 per ton, large squares 115.00-125.00, large rounds 100.00-115.00. Fair quality large squares 90.00-110.00 per ton. Fair large rounds 80.00-95.00 a ton.

WHEAT HAY:

CENTRAL AND WESTERN OKLAHOMA: Wheat hay in large round bales 55.00-75.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA: Good grinding alfalfa at the edge of the field or bale pile (spot) 80.00-100.00 a ton. Chopped and delivered to feedlots (short haul) 110.00-130.00 per ton.

GRASS HAY:

CENTRAL AND EASTERN OKLAHOMA: Premium quality small squares 120.00-140.00 per ton, large squares 75.00-95.00 a ton, large rounds 70.00-95.00. Good quality small squares 85.00-100.00 per ton, large rounds 50.00-75.00 per ton. Fair quality 45.00-60.00 per ton.

OKLAHOMA DIRECT FEEDER CATTLE SALES  
(01/21/11)

Feeder Cattle Weighted Average Report for 01/15-20/2011.  
Confirmed: 9930 Last Week: 7565 Last Year: 9380

Compared to the last week: Feeder steers and heifers sold 3.00 to 4.00 higher. Cattle futures move higher again early in the week and local auction markets continue to report higher feeder and calf prices. Majority of the state had some form of precipitation this week whether ice, snow or both which made for difficult travel Thursday morning. Supply included 100 percent over 600 lbs; 17 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT  
(02/02/11)

ALFALFA HAY: Alfalfa hay prices remain firm and movement is moderate. Heavy snowfall, sleet, and ice cover most of the state this week. The extreme cold weather combined with strong winds has made it difficult for livestock and producers. Supplies continue tightening with the increased hay demand needed to sustain livestock in the frigid weather.

GRASS HAY: Grass hay prices are firm and movement remains moderate. Grass hay supplies have also tightened with the increased demand due to the extreme weather conditions. Producers looking for hay to purchase or have hay to sell can access the hay directory on the Oklahoma Department of Agriculture's website at [www.oda.state.ok.us](http://www.oda.state.ok.us), or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality small squares 195-220 per ton, large squares 125.00-145.00 per ton, large rounds 120.00-135.00. Good quality small squares 155.00-175.00 per ton, large squares 115.00-125.00, large rounds 100.00-115.00. Fair quality large squares 90.00-110.00 per ton. Fair large rounds 80.00-95.00 a ton.

W H E A T H A Y:

CENTRAL AND WESTERN OKLAHOMA: Wheat hay in large round bales 55.00-75.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA: Good grinding alfalfa at the edge of the field or bale pile (spot) 80.00-100.00 a ton. Chopped and delivered to feedlots (short haul) 110.00-130.00 per ton.

GRASS HAY:

CENTRAL AND EASTERN OKLAHOMA: Premium quality small squares 120.00-140.00 per ton, large squares 75.00-95.00 a ton, large rounds 70.00-95.00. Good quality small squares 85.00-100.00 per ton, large rounds 50.00-75.00 per ton. Fair quality 45.00-60.00 per ton.

OKLAHOMA DIRECT FEEDER CATTLE SALES  
(01/27/11)

Feeder Cattle Weighted Average Report for 01/22-27/2011.

Confirmed: 6389 Last Week: 9930 Last Year: 4610

Compared to the last week: Feeder steers 2.00-4.00 lower; not enough comparable sales for an accurate comparison on heifers but a steady undertone noted. Feeder prices have retreated this week as packers continue to pressure feedlots with lower harvest rates and live cattle prices falling 3.00 over the last 2 weeks. Supply included 100 percent over 600 lbs; 48 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT  
(02/09/11)

ALFALFA HAY: Alfalfa hay prices remain firm and movement is slow. Heavy snowfall covered most of the state again this week. Extreme cold weather and strong winds continue to make it miserable for livestock and producers. Poor road conditions have slowed most hay movement. Supplies continue to tighten with the increased hay demand needed to sustain livestock in the frigid weather.

GRASS HAY: Grass hay prices are firm and movement is slow. Grass hay supplies continue to tighten with the increased demand due to the extreme weather conditions. Producers looking for hay to purchase or have hay to sell can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us, or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality small squares 195-220 per ton, large squares 125.00-145.00 per ton, large rounds 120.00-135.00. Good quality small squares 155.00-175.00 per ton, large squares 115.00-125.00, large rounds 100.00-115.00. Fair quality large squares 90.00-110.00 per ton. Fair large rounds 80.00-95.00 a ton.

W H E A T H A Y:

CENTRAL AND WESTERN OKLAHOMA: Wheat hay in large round bales 55.00-75.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA: Good grinding alfalfa at the edge of the field or bale pile (spot) 80.00-100.00 a ton. Chopped and delivered to feedlots (short haul) 110.00-130.00 per ton.

GRASS HAY:

CENTRAL AND EASTERN OKLAHOMA: Premium quality small squares 120.00-140.00 per ton, large squares 75.00-95.00 a ton, large rounds 70.00-95.00. Good quality small squares 85.00-100.00 per ton, large rounds 50.00-75.00 per ton. Fair quality 45.00-60.00 per ton.

OKLAHOMA DIRECT FEEDER CATTLE SALES  
(02/04/11)

Feeder Cattle Weighted Average Report for 01/29-2/4/2011.

Confirmed: 4263 Last Week: 6389 Last Year: 4420

Compared to the last week: Feeder steers and heifers steady. Winter storm shut down most of the trade area middle of the week. Eastern part of the state receiving up to 20 inches of snow. Wheat growing country received 2 to 7 inches but sustained high winds kept the moisture off the wheat and in the ditches. Many secondary roads remain treacherous as more snow and ice expected in the near forecast. Supply included 100 percent over 600 lbs; 53 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT  
(02/16/11)

**ALFALFA HAY:** Alfalfa hay prices are steady and movement is slow. Warmer weather has replaced the extreme cold of last week. Poor road conditions have continued to hamper hay movement. Producers are reluctant to move additional hay due to recent increases in feeding due to the weather. Supplies continue to tighten as a result.

**GRASS HAY:** Grass hay prices are steady and movement remains slow. Grass hay supplies also continue to tighten with the increased feeding demands. Producers looking for hay to purchase or have hay to sell can access the hay directory on the Oklahoma Department of Agriculture's website at [www.oda.state.ok.us](http://www.oda.state.ok.us), or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

**ALFALFA:**

**CENTRAL AND WESTERN OKLAHOMA:** Premium quality small squares 195-220 per ton, large squares 125.00-145.00 per ton, large rounds 120.00-135.00. Good quality small squares 155.00-175.00 per ton, large squares 115.00-125.00, large rounds 100.00-115.00. Fair quality large squares 90.00-110.00 per ton. Fair large rounds 80.00-95.00 a ton.

**W H E A T H A Y:**

**CENTRAL AND WESTERN OKLAHOMA:** Wheat hay in large round bales 55.00-75.00 a ton.

**PANHANDLE AND WESTERN FEEDLOT AREA:** Good grinding alfalfa at the edge of the field or bale pile (spot) 80.00-100.00 a ton. Chopped and delivered to feedlots (short haul) 110.00-130.00 per ton.

**GRASS HAY:**

**CENTRAL AND EASTERN OKLAHOMA:** Premium quality small squares 120.00-140.00 per ton, large squares 75.00-95.00 a ton, large rounds 70.00-95.00. Good quality small squares 85.00-100.00 per ton, large rounds 50.00-75.00 per ton. Fair quality 45.00-60.00 per ton.

OKLAHOMA DIRECT FEEDER CATTLE SALES  
(02/11/11)

Feeder Cattle Weighted Average Report for 02/5-2/11/2011.

Confirmed: 790 Last Week: 4263 Last Year: 4500

Compared to the last week: Feeder steers and heifers steady on limited sales. Another round of Winter storms has brought cattle movement to a standstill in the trade area. Most auction markets closed for a second week in a row. Tulsa area breaking Winter records with snowfall levels not seen since 1924. Record low temperatures in the Osage observed in Bartlesville on Thursday with an actual temperature of 28 degrees (F) below 0. Supply included 100 percent over 600 lbs; 15 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT  
(02/23/11)

**ALFALFA HAY:** Alfalfa hay prices are firm and movement is steady. Warmer weather has resulted in better road conditions allowing more hay movement around the state. Producers are still reluctant to move much hay due to their own feeding needs. Supplies continue to tighten as a result.

**GRASS HAY:** Grass hay prices are steady and movement is moderate. Grass hay supplies also continue to tighten. Producers looking for hay to purchase or have hay to sell can access the hay directory on the Oklahoma Department of Agriculture's website at [www.oda.state.ok.us](http://www.oda.state.ok.us), or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

**ALFALFA:**

**CENTRAL AND WESTERN OKLAHOMA:** Premium quality small squares 195-220 per ton, large squares 125.00-145.00 per ton, large rounds 120.00-135.00. Good quality small squares 155.00-175.00 per ton, large squares 115.00-125.00, large rounds 100.00-115.00. Fair quality large squares 90.00-110.00 per ton. Fair large rounds 80.00-95.00 a ton.

**WHEAT HAY:**

**CENTRAL AND WESTERN OKLAHOMA:** Wheat hay in large round bales 55.00-75.00 a ton.

**PANHANDLE AND WESTERN FEEDLOT AREA:** Good grinding alfalfa at the edge of the field or bale pile (spot) 80.00-100.00 a ton. Chopped and delivered to feedlots (short haul) 110.00-130.00 per ton.

**GRASS HAY:**

**CENTRAL AND EASTERN OKLAHOMA:** Premium quality small squares 120.00-140.00 per ton, large squares 75.00-95.00 a ton, large rounds 70.00-95.00. Good quality small squares 85.00-100.00 per ton, large rounds 50.00-75.00 per ton. Fair quality 45.00-60.00 per ton.

OKLAHOMA DIRECT FEEDER CATTLE SALES  
(02/18/11)

Feeder Cattle Weighted Average Report for 02/12-18/2011.

Confirmed: \*7472\* Last Week: 790 Last Year: 5980  
Compared to last week: No recent test for comparison of feeder trends, however market showing a definite higher undertone. Two weeks of very little or no cattle movement due to 2 major winter storms had feedyards hungry for numbers. Cattle futures have rallied again this week along with the grain markets, thus there is a fell that all facets of agriculture are in a very bullish mode. Supply included 98 percent over 600 lbs; 41percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT  
(03/02/11)

ALFALFA HAY: Alfalfa hay prices are firm and movement is moderate. Warmer weather remained this week with some areas of the state receiving a little rainfall. Over half of the state remains in a moderate to severe drought. Supplies continue to tighten as producers either sell out or hold on to hay for their own use.

GRASS HAY: Grass hay prices are steady and movement is steady. Grass hay supplies continue to tighten. The limited moisture and warmer weather has encouraged some winter grass growth. Producers looking for hay to purchase or have hay to sell can access the hay directory on the Oklahoma Department of Agriculture's website at [www.oda.state.ok.us](http://www.oda.state.ok.us), or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality small squares 195-220 per ton, large squares 125.00-145.00 per ton, large rounds 120.00-135.00. Good quality small squares 155.00-175.00 per ton, large squares 115.00-125.00, large rounds 100.00-115.00. Fair quality large squares 90.00-110.00 per ton. Fair large rounds 80.00-95.00 a ton.

WHEAT HAY:

CENTRAL AND WESTERN OKLAHOMA: Wheat hay in large round bales 55.00-75.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA: Good grinding alfalfa at the edge of the field or bale pile (spot) 80.00-100.00 a ton. Chopped and delivered to feedlots (short haul) 110.00-130.00 per ton.

GRASS HAY:

CENTRAL AND EASTERN OKLAHOMA: Premium quality small squares 120.00-140.00 per ton, large squares 75.00-95.00 a ton, large rounds 70.00-95.00. Good quality small squares 85.00-100.00 per ton, large rounds 50.00-75.00 per ton. Fair quality 45.00-60.00 per ton.

OKLAHOMA DIRECT FEEDER CATTLE SALES  
(02/25/11)

Feeder Cattle Weighted Average Report for 02/19-25/2011.

Confirmed: \*6071\* Last Week: 7472 Last Year: 7513

Compared to last week: Feeder steers sold 1.00 to 3.00 higher. Feeder heifers sold steady. Demand good for all classes. Wheat exodus in full swing, evidenced by increased auction market receipts. Much of the state received timely moisture for wheat fields this week, which is the first measurable rainfall since early Fall. Supply included 99 percent over 600 lbs; 14 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT  
(03/09/11)

ALFALFA HAY: Alfalfa hay prices are steady and movement is moderate. Some areas of the state received much needed rain-fall, while others did not. Additional moisture is still needed. As the alfalfa is trying to grow, producers are busy spraying for aphids and weevils. Higher fuel prices are beginning to affect longer transports of hay.

GRASS HAY: Grass hay prices are steady and movement is moderate. Grass hay supplies continue to tighten, although some growers are beginning to turn lose of additional hay. A majority of cattle have been pulled off of grazing wheat grown for grain at this time. Producers looking for hay to purchase or have hay to sell can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us, or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality small squares 195-220 per ton, large squares 125.00-145.00 per ton, large rounds 120.00-135.00. Good quality small squares 155.00-175.00 per ton, large squares 115.00-125.00, large rounds 100.00-115.00. Fair quality large squares 90.00-110.00 per ton. Fair large rounds 80.00-95.00 a ton.

WHEAT HAY:

CENTRAL AND WESTERN OKLAHOMA: Wheat hay in large round bales 55.00-75.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA: Good grinding alfalfa at the edge of the field or bale pile (spot) 80.00-100.00 a ton. Chopped and delivered to feedlots (short haul) 110.00-130.00 per ton.

GRASS HAY:

CENTRAL AND EASTERN OKLAHOMA: Premium quality small squares 120.00-140.00 per ton, large squares 75.00-95.00 a ton, large rounds 70.00-95.00. Good quality small squares 85.00-100.00 per ton, large rounds 50.00-75.00 per ton. Fair quality 45.00-60.00 per ton.

OKLAHOMA DIRECT FEEDER CATTLE SALES  
(03/04/11)

Feeder Cattle Weighted Average Report for 02/26-03/04/2011.

Confirmed: 10,428 Last Week: 6071 Last Year: 5782

Compared to last week: Feeder steers over 800 lbs 1.00-2.00 lower; under 800 lbs 1.00-5.00 higher. Feeder heifers sold steady to 1.00 lower compared to a light test last week. Feeder cattle continue to move off winter pastures in good demand. Demand also very good for forward contract cattle as back months of the feeder cattle contracts remain strong. Weather has warmed some and grass pastures beginning to show a little green. Cold fronts continue to move thru every few days or so however most of the moisture from those fronts are falling in the eastern half of the state. Wildfires continue to be a major threat for the western half of the state. Supply included 98 percent over 600 lbs; 42 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT  
(03/16/11)

ALFALFA HAY: Alfalfa hay prices are steady and movement is steady. Scattered showers fell in some areas of the state this past week providing a little relief from the drought. Additional moisture is still needed. Producers continue to spray for aphids and weevils.

GRASS HAY: Grass hay prices are steady and movement remains moderate. Grass hay supplies have eased a bit as some growers are beginning to turn lose of additional hay. Lower quality beef cow hay has shown an increase in movement. Producers looking for hay to purchase or have hay to sell can access the hay directory on the Oklahoma Department of Agriculture's website at [www.oda.state.ok.us](http://www.oda.state.ok.us), or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality small squares 195-220 per ton, large squares 125.00-145.00 per ton, large rounds 120.00-135.00. Good quality small squares 155.00-175.00 per ton, large squares 115.00-125.00, large rounds 100.00-115.00. Fair quality large squares 90.00-110.00 per ton. Fair large rounds 80.00-95.00 a ton.

WHEAT HAY:

CENTRAL AND WESTERN OKLAHOMA: Wheat hay in large round bales 55.00-75.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA: Good grinding alfalfa at the edge of the field or bale pile (spot) 80.00-100.00 a ton. Chopped and delivered to feedlots (short haul) 110.00-130.00 per ton.

GRASS HAY:

CENTRAL AND EASTERN OKLAHOMA: Premium quality small squares 120.00-140.00 per ton, large squares 75.00-95.00 a ton, large rounds 70.00-95.00. Good quality small squares 85.00-100.00 per ton, large rounds 50.00-75.00 per ton. Fair quality 45.00-60.00 per ton.

OKLAHOMA DIRECT FEEDER CATTLE SALES  
(03/11/11)

Feeder Cattle Weighted Average Report for 03/05-11/2011.

Confirmed: 9146 Last Week: 10,428 Last Year: 6774

Compared to last week: Feeder steers steady to 2.00 lower. Feeder heifers 1.00 lower. Cattle markets declined at the beginning of the trade period as numbers of feeder cattle increased at area sale barns. However late in the period slaughter cattle markets rallied pushing the feeder market even higher. The March feeder cattle exodus off wheat is winding down and numbers expected to be lighter next week. The past couple of rain storms have missed much of western, central and southern Oklahoma. This area remains under high fire danger. Despite this demand remains very good for grass cattle. Supply included 97 percent over 600 lbs; 25 percent heifers. Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT  
(03/23/11)

ALFALFA HAY: Alfalfa hay prices are steady and movement is slow to steady. Alfalfa supplies are very tight. The drought continues to persist with low chances of precipitation in the forecast. Over 82 percent of the state is now experiencing moderate to extreme drought conditions. Alfalfa continues to green up despite the insect pressures and lack of rainfall.

GRASS HAY: Grass hay prices are steady and movement is moderate. Grass hay supplies are still available as growers turn loose of additional hay. The dry weather and wild fires; however, continue to pressure hay supplies as winter and spring grass growth has been limited due to the drought. Producers looking for hay to purchase or have hay to sell can access the hay directory on the Oklahoma Department of Agriculture's website at www.ag.ok.gov, or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality small squares 195-220 per ton, large squares 125.00-145.00 per ton, large rounds 120.00-135.00. Good quality small squares 155.00-175.00 per ton, large squares 115.00-125.00, large rounds 100.00-115.00. Fair quality large squares 90.00-110.00 per ton. Fair large rounds 80.00-95.00 a ton.

W H E A T H A Y:

CENTRAL AND WESTERN OKLAHOMA: Wheat hay in large round bales 55.00-75.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA: Good grinding alfalfa at the edge of the field or bale pile (spot) 80.00-100.00 a ton. Chopped and delivered to feedlots (short haul) 110.00-130.00 per ton.

GRASS HAY:

CENTRAL AND EASTERN OKLAHOMA: Premium quality small squares 120.00-140.00 per ton, large squares 75.00-95.00 a ton, large rounds 70.00-95.00. Good quality small squares 85.00-100.00 per ton, large rounds 50.00-75.00 per ton. Fair quality 45.00-60.00 per ton.

OKLAHOMA DIRECT FEEDER CATTLE SALES  
(03/18/11)

Feeder Cattle Weighted Average Report for 03/12-18/2011.

Confirmed: 5570 Last Week: 9496 Last Year: 4602

Compared to last week: Feeder steers and heifers steady to 2.00 higher. Early trades this week reflect higher trend, by mid week feeder cattle prices pressured lower in response to lower live cattle sales and ominous futures trading Wednesday. Demand moderate to good for feeder cattle and demand remains good for stocker cattle. Many portions of the state still needing rain for spring grazing. Supply included 97 percent over 600 lbs; 37 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT  
(03/23/11)

ALFALFA HAY: Alfalfa hay prices are steady and movement is slow to steady. Alfalfa supplies are very tight. The drought continues to persist with low chances of precipitation in the forecast. Over 82 percent of the state is now experiencing moderate to extreme drought conditions. Alfalfa continues to green up despite the insect pressures and lack of rainfall.

GRASS HAY: Grass hay prices are steady and movement is moderate. Grass hay supplies are still available as growers turn loose of additional hay. The dry weather and wild fires; however, continue to pressure hay supplies as winter and spring grass growth has been limited due to the drought. Producers looking for hay to purchase or have hay to sell can access the hay directory on the Oklahoma Department of Agriculture's website at [www.ag.ok.gov](http://www.ag.ok.gov), or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality small squares 195-220 per ton, large squares 125.00-145.00 per ton, large rounds 120.00-135.00. Good quality small squares 155.00-175.00 per ton, large squares 115.00-125.00, large rounds 100.00-115.00. Fair quality large squares 90.00-110.00 per ton. Fair large rounds 80.00-95.00 a ton.

W H E A T H A Y:

CENTRAL AND WESTERN OKLAHOMA: Wheat hay in large round bales 55.00-75.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA: Good grinding alfalfa at the edge of the field or bale pile (spot) 80.00-100.00 a ton. Chopped and delivered to feedlots (short haul) 110.00-130.00 per ton.

GRASS HAY:

CENTRAL AND EASTERN OKLAHOMA: Premium quality small squares 120.00-140.00 per ton, large squares 75.00-95.00 a ton, large rounds 70.00-95.00. Good quality small squares 85.00-100.00 per ton, large rounds 50.00-75.00 per ton. Fair quality 45.00-60.00 per ton.

OKLAHOMA DIRECT FEEDER CATTLE SALES  
(03/18/11)

Feeder Cattle Weighted Average Report for 03/12-18/2011.

Confirmed: 5570 Last Week: 9496 Last Year: 4602

Compared to last week: Feeder steers and heifers steady to 2.00 higher. Early trades this week reflect higher trend, by mid week feeder cattle prices pressured lower in response to lower live cattle sales and ominous futures trading Wednesday. Demand moderate to good for feeder cattle and demand remains good for stocker cattle. Many portions of the state still needing rain for spring grazing. Supply included 97 percent over 600 lbs; 37 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT  
(04/8/11)

ALFALFA HAY: Alfalfa hay prices quoted steady but movement is extremely light as supplies remain tight. Dry, windy weather continues to take a toll with over 92 percent of the state in moderate to severe drought.

GRASS HAY: Grass hay prices firm to instances 10.00 higher in central and western Oklahoma. Movement mostly moderate. Producers looking for hay to purchase or have hay to sell can access the hay directory on the Oklahoma Department of Agriculture's website at [www.ag.ok.gov](http://www.ag.ok.gov), or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality small squares 195-220 per ton, large squares 125.00-145.00 per ton, large rounds 120.00-135.00. Good quality small squares 155.00-175.00 per ton, large squares 115.00-125.00, large rounds 100.00-115.00. Fair quality large squares 90.00-110.00 per ton. Fair large rounds 80.00-95.00 a ton.

WHEAT HAY:

CENTRAL AND WESTERN OKLAHOMA: Wheat hay in large round bales 55.00-75.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA: Good grinding alfalfa at the edge of the field or bale pile (spot) 80.00-100.00 a ton. Chopped and delivered to feedlots (short haul) 110.00-130.00 per ton.

GRASS HAY:

CENTRAL AND EASTERN OKLAHOMA: Premium quality small squares 120.00-140.00 per ton, large squares 75.00-95.00 a ton, large rounds 70.00-95.00. Good quality small squares 85.00-100.00 per ton, large rounds 60.00-80.00 per ton. Fair quality 50.00-70.00 per ton.

OKLAHOMA DIRECT FEEDER CATTLE SALES  
(03/18/11)

Feeder Cattle Weighted Average Report for 03/12-18/2011.

Confirmed: 5570 Last Week: 9496 Last Year: 4602

Compared to last week: Feeder steers and heifers steady to 2.00 higher. Early trades this week reflect higher trend, by mid week feeder cattle prices pressured lower in response to lower live cattle sales and ominous futures trading Wednesday. Demand moderate to good for feeder cattle and demand remains good for stocker cattle. Many portions of the state still needing rain for spring grazing. Supply included 97 percent over 600 lbs; 37 percent heifers..

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

USDA CROP & WEATHER SUMMARY  
(04/25/11)

After weeks of experiencing severe drought conditions, Oklahoma finally received the first widespread rain of the season last week. Most of the State saw measurable precipitation with five of the nine districts receiving over an inch of rainfall. The East Central district received the most with over five inches of rain. The Panhandle, West Central, Southwest, and North Central districts did receive some rain but are still in desperate need of more. Topsoil and subsoil moisture conditions were rated mostly very short with 81 percent of topsoil and 87 percent of subsoil rated short to very short. Additional moisture is still needed to improve field and crop conditions.

**Small Grains:** Although the weekend rains were desperately needed, it may be too late to benefit the wheat crop as conditions are still dismal and yield potential has been severely limited. Wheat jointing was 98 percent complete by Sunday, and wheat headed reached 66 percent complete, 17 points ahead of normal. Rye headed was 93 percent complete by week's end, 32 points ahead of normal. Oats planted reached 95 percent complete and 59 percent were jointing by week's end. Nearly a third of the State's canola crop had matured by Sunday.

**Row Crops:** Seedbed preparations continued and producers welcomed the soaking rains over the weekend. Corn seedbeds prepared reached 94 percent complete with 67 percent of corn planted and 16 percent emerged by Sunday. Sorghum seedbed preparation reached 60 percent complete, 11 points ahead of the five-year average. Soybean seedbed preparation increased by six points to reach 49 percent complete, three points behind normal. Peanut seedbeds prepared reached 75 percent complete by week's end, eight points ahead of the five-year average. Cotton seedbed preparation was 63 percent complete by Sunday, 11 points behind normal.

**Hay:** First cuttings of alfalfa reached 17 percent complete, while first cuttings of other hay reached six percent complete by week's end.

**Pasture and Range:** Pasture and range are in need of additional moisture, especially out west, in order for conditions to improve as 62 percent was rated poor to very poor. Livestock producers are continuing to feed hay and supplements.

OKLAHOMA DIRECT FEEDER CATTLE SALES  
(04/15-22/11)

Confirmed: 6299 Last Week: 5184 Last Year: 5969

Compared to last week: Feeder steers steady to 2.00 lower. Feeder heifers 1.00 to 2.00 lower. USDA CROP & WEATHER SUMMARY  
(05/2/11)

Multiple rain showers fell across Oklahoma over the past week. The southeastern quarter of the state received the heaviest rains. Almost all of the state saw measurable precipitation with four districts receiving over an inch of rainfall. The rainfall received in the west was not enough to overcome the current drought, with producers needing more rain to plant summer crops. Topsoil and subsoil moisture conditions improved from the previous week with 64 percent of topsoil and 76 percent of subsoil rated short to very short. The multiple inches of rain received in the East Central and Southeast districts left seven percent of topsoil and five of subsoil percent rated surplus. There were only 3.6 days suitable for field work.

Small Grains: Condition ratings remained mostly poor to very poor for all small grains. While it may be too late for some wheat to recover from the damage of the drought, other stands may still see improvements from recent rainfall. Disease pressures were also creating problems for wheat producers. Wheat headed reached 85 percent complete, 14 points ahead of normal and 12 percent of wheat was in the soft dough stage by Sunday. Rye headed was virtually complete by week's end, while 15 percent of rye had reached the soft dough stage of development. Oats jointing was 70 percent complete by week's end and 24 percent had headed. Forty percent of canola crop had matured by Sunday, up nine points from the week prior.

Row Crops: Rains slowed field work, but some planting progress occurred for all row crops. Corn seedbeds prepared reached 96 percent complete with 81 percent of corn planted and 30 percent emerged by Sunday. Sorghum seedbed preparation reached 71 percent complete and eight percent was planted by the end of the week. Soybean seedbed preparation was 57 percent complete and 10 percent was planted by Sunday. Peanut seedbeds prepared reached 80 percent complete by week's end and six percent were planted. Cotton seedbed preparation was 67 percent complete by Sunday, 15 points behind normal, with five percent of the crop planted.

Hay: Condition was rated mostly in the fair to poor range with 19 percent of alfalfa and 25 percent of other hay rated very poor. First cuttings of alfalfa reached 30 percent complete, while first cuttings of other hay reached 14 percent complete by week's end. Pasture and Range: Condition started to improve due to recent rainfall; pasture and range condition was rated mostly fair to poor with 19 percent rated very poor.

OKLAHOMA DIRECT FEEDER CATTLE SALES  
(04/22-29/11)

Confirmed: 5375 Last Week: 6299 Last Year: 10,000

Compared to last week: Feeder steers steady. Feeder heifers lightly tested and few sales 2.00 lower. 0 lbs; 33 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

USDA CROP & WEATHER SUMMARY  
(05/9/11)

Oklahoma experienced a mixture of weather over the past week. Temperatures were cooler and resulted in a frost advisory being issued for western and central Oklahoma on Monday and Tuesday. Average temperatures were in the sixties with temperatures ranging from 26 to 108 degrees. Oklahoma received minimal rainfall during the past week with the southeast district receiving the most measurable rainfall at 1.25 inches. Additionally, the windy conditions coupled with the lack of rainfall in western and southwestern Oklahoma are resulting in exceptionally bad drought conditions. Topsoil and subsoil moisture conditions declined from the previous week and were both rated mostly very short with only two and three percent rated surplus, respectively. Small Grains: Condition ratings continue to be rated mostly poor to very poor for all small grains. The lack of rainfall and high temperatures in the western part of the State continued to be a problem for wheat producers. Wheat headed reached 93 percent complete, five points ahead of the five-year average and 33 percent of wheat was in the soft dough stage by Sunday. Rye in the soft dough stage of development reached 56 percent complete by week's end, a 41 point increase from the previous week. Oats jointing was 82 percent complete by week's end and 36 percent had headed. Canola in the mature stage reached 54 percent complete by Sunday, up 14 points from the previous week. Row Crops: Lack of moisture hindered some row crop planting last week. Corn planted reached 89 percent complete and 38 percent of the crop had emerged by Sunday. Sorghum seedbed preparation reached 82 percent complete and 13 percent was planted by week's end. Soybean seedbed preparation was 64 percent complete and 14 percent was planted by Sunday. Peanut seedbeds prepared reached 88 percent complete and 32 percent were planted by week's end, up 26 points from the previous week and ten points ahead of normal. Cotton seedbed preparation was 75 percent complete by Sunday, 13 points behind normal, with 12 percent of the crop planted. Hay: Hay supplies are very low due to dry conditions and were rated mostly in the fair to poor range with 24 percent of alfalfa and 26 percent of other hay rated very poor. First cuttings of alfalfa reached 46 percent complete, while first cuttings of other hay reached 19 percent complete by week's end. Pasture and Range: Conditions improved slightly as a result of rainfall from weeks prior. Pasture and range condition is rated mostly fair to poor with 17 percent rated very poor.

OKLAHOMA DIRECT FEEDER CATTLE SALES

(04/29-05/06/11)

Confirmed: 4653 Last Week: 5375 Last Year: 7835

USDACROP & WEATHER SUMMARY  
(05/16/11)

The week began extremely warm with temperatures topping 100 degrees in multiple locations across the state. Severe weather moved across the state Wednesday bringing downpours and wind gusts over 50 mph. Temperatures cooled down for the rest of the week with average temperatures in the mid-sixties. Mid-week rainfall resulted in a statewide average of 0.62 inches with all districts receiving a quarter of an inch or more, and the Northeast district receiving an inch of rain. The U.S. Drought Monitor released last week for May 10th increased the area of the state in an "exceptional drought" to 15 percent of the state. The drought in the western half of the state continues to affect crop conditions and slow the planting of summer crops. Topsoil moisture conditions improved slightly from the week's rainfall but subsoil moisture conditions declined slightly: 70 percent of topsoil and 81 percent of subsoil were rated short to very short.

Small Grains: Condition ratings continued to be rated mostly poor to very poor for all small grains. Wheat headed is virtually complete and 52 percent of wheat was in the soft dough stage by Sunday, five points ahead of normal. Rye in the soft dough stage of development reached 79 percent complete by week's end, 14 points ahead of the five-year average. Oats jointing was 89 percent complete by week's end and 54 percent had headed. Twenty-two percent of oats reached the soft dough stage by Sunday. Canola in the mature stage reached 65 percent complete by week's end, up 11 points from the previous week.

Row Crops: The dry conditions have slowed the planting of some crops, particularly in the southwest. Corn planted reached 92 percent complete and 47 percent of the crop had emerged by Sunday, 23 points behind normal. Sorghum seedbed preparation reached 84 percent complete and 27 percent was planted by week's end. Soybean seedbed preparation was 66 percent complete and 19 percent was planted by Sunday, eight points behind normal. Peanut seedbeds prepared reached 95 percent complete and 49 percent were planted, while 17 percent of the crop had emerged by week's end. Cotton seedbed preparation was 95 percent complete by Sunday, but only 13 percent of the crop was planted, seven points behind the five-year average.

Hay: Conditions were rated mostly in the fair to poor range with 25 percent of alfalfa and 29 percent of other hay rated very poor. First cuttings of alfalfa reached 54 percent complete, while first cuttings of other hay reached 22 percent complete by week's end.

Pasture and Range: Conditions continued to be rated mostly fair to poor with 20 percent rated very poor. Availability of land for grazing is limited in some areas due to the drought.

OKLAHOMA DIRECT FEEDER CATTLE SALES  
(05/06-05/13/11)

Confirmed: 6301 Last Week: 4653 Last Year: 6474

USDA CROP & WEATHER SUMMARY  
(05/23/11)

Rain was received throughout much of the state this past week. Although there was some damage caused by last week's storms, the much needed rain brought the state a step closer toward easing the drought conditions in some areas. Topsoil and subsoil moisture conditions improved significantly as a result of the rain and ten percent of topsoil and four percent of subsoil were rated surplus. There were 5.0 days suitable for field work.

**Small Grains:** Despite the recent rainfall, condition ratings continue to be rated mostly poor to very poor for all small grains. Wheat in the soft dough stage reached 81 percent by Sunday, 11 points ahead of normal. Rye in the soft dough stage of development reached 82 percent complete by week's end, on target with the five-year average. Oats jointing was 93 percent complete and 75 percent of the crop was heading. Forty-two percent of the crop reached the soft dough stage by week's end. Canola in the mature stage reached 77 percent complete by week's end, up 12 points from the previous week.

**Row Crops:** Last week's rainfall improved field conditions in some areas and allowed row crop planting to continue. Corn planting was virtually complete by week's end and 58 percent of the crop had emerged by Sunday, 25 points behind normal. Sorghum seedbed preparation reached 86 percent complete and 35 percent was planted by week's end. Soybean seedbed preparation was 73 percent complete and 29 percent was planted by Sunday, up ten points from the previous week, but seven points behind normal. Peanuts planted reached 66 percent complete while 22 percent of the crop had emerged by week's end. Cotton planted was 15 percent complete by Sunday, 22 points behind normal.

**Miscellaneous Crops:** Plantings of the 2011 watermelon crop were 94 percent complete by week's end, 18 points ahead of the five-year average.

**Hay:** Conditions were rated mostly in the fair to poor range with 21 percent of alfalfa and 23 percent of other hay rated very poor. First cuttings of alfalfa reached 65 percent complete, while first cuttings of other hay reached 27 percent complete by Sunday.

**Pasture and Range:** Conditions improved slightly as a result of recent rain received; however, additional rainfall is needed to combat the extremely dry conditions across the state. Pasture and range was rated mostly fair to poor with 16 percent rated very poor.

OKLAHOMA DIRECT FEEDER CATTLE SALES  
(05/13-05/20/11)

Confirmed: 2384 Last Week: 6301 Last Year: 2570  
Compared to last week: Feeder steers 1.00-3.00 lower. Feeder heifers steady to 2.00 lower. Markets on the decline this week and quotes on the higher end were trades that took place at the beginning of the trade period.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

USDA CROP & WEATHER SUMMARY  
(05/31/11)

OKLAHOMA DIRECT FEEDER CATTLE SALES  
(05/20-05/27/11)

Confirmed: 2726 Last Week: 2384 Last Year: 4863

Compared to last week: Feeder cattle 5.00 to 7.00 lower. Markets on the decline as live cattle prices continue to retreat. Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

. The panhandle and parts of far western Oklahoma are in a D4 or "exceptional" drought as of the May 24th U.S. Drought Monitor. As a result of the continuing drought, emergency grazing of CRP acres has been authorized for 22 counties, including the Panhandle district, where the last 180 days have been the driest period on record since 1921. Topsoil moisture conditions remained mostly adequate to short and subsoil moisture conditions were mostly very short to short. There were 4.8 days suitable for field work.

**Small Grains:** Harvest is underway for wheat and canola. This week's storms brought additional concerns for the wheat harvest with debris in wheat fields and five percent of the state reporting moderate to heavy crop damage from hail. Wheat in the soft dough stage reached 96 percent by Sunday, 11 points ahead of normal, and 13 percent was harvested. Rye in the soft dough stage of development reached 93 percent complete by week's end. Oats jointing was 95 percent complete, 89 percent of the crop was heading and 55 percent of the crop reached the soft dough stage by week's end. Canola in the mature stage reached 91 percent complete by week's end, up 14 points from the previous week and 18 percent of the crop had been harvested.

**Row Crops:** Corn conditions continued to be rated mostly in the good category and planting of other row crops continued where weather allowed. Eighty-eight percent of the corn crop had emerged by Sunday. Sorghum seedbed preparation reached 91 percent complete, 54 percent was planted and 16 percent of the crop had emerged by week's end. Soybean seedbed preparation was 81 percent complete while 39 percent of the crop was planted and 22 percent had emerged by Sunday. Peanut planting was 74 complete by week's end while 42 percent of the crop had emerged. Cotton planted was 33 percent complete by Sunday, 24 points behind normal.

**Miscellaneous Crops:** The watermelon crop was 95 percent planted by week's end and 29 percent of the plants were running vines.

**Hay:** Conditions continued to be rated mostly in the fair to poor range. First cuttings of alfalfa reached 82 percent complete and first cuttings of other hay reached 31 percent complete by Sunday, both behind the five-year average.

**Pasture and Range:** Conditions improved slightly as pasture and range were rated mostly fair to good with 33 percent rated very poor to very poor.

USDA CROP & WEATHER SUMMARY  
(06/06/11)

Oklahoma experienced mild, dry weather for the majority of last week with statewide temperatures averaging 80 degrees. Very little rainfall was recorded across the State during the week. Notably, the Boise City Mesonet received a quarter-inch of rainfall last week, ending a 250 day dry spell for the area. Portions of the state are still experiencing drought conditions and are still in need of rainfall. Topsoil moisture conditions decreased slightly to rate mostly in the short to very short range, with subsoil moisture conditions also rating mostly in the short to very short range. The mild weather allowed for a busy week of field activities, with 6.6 days suitable for field work.

**Small Grains:** Well ahead of normal, harvest activities accelerated last week. Wheat harvested increased significantly, jumping 32 points to reach 45 percent complete by Sunday. Rye harvested reached 22 percent complete by week's end. Oats headed reached 93 percent complete and 66 percent of the crop was in the soft dough stage by Sunday. Canola in the mature stage reached 98 percent complete by week's end, up seven points from the previous week, and 50 percent of the crop had been harvested, a 32 point increase from the previous week.

**Row Crops:** Row crop planting continued to progress steadily. Corn emerged reached 91 percent complete by Sunday. Sorghum seedbed preparation increased to 93 percent complete, while 63 percent was planted and 26 percent of the crop had emerged by week's end. Soybean seedbed preparation was 84 percent complete while 54 percent of the crop was planted and 33 percent had emerged by Sunday. Peanut planting was 84 percent complete by week's end and 56 percent of the crop had emerged. Cotton planted was 55 percent complete and 14 percent of the crop had emerged by Sunday.

**Miscellaneous Crops:** The watermelon crop was completely planted by week's end and 65 percent of the plants were running vines.

**Hay:** Dry conditions last week allowed farmers to continue cutting and baling hay. Conditions continued to be rated mostly in the fair to very poor range. First cuttings of alfalfa reached 88 percent complete while second cuttings reached 18 percent complete, both behind the five-year average. First cuttings of other hay reached 40 percent complete by Sunday.

**Pasture and Range:** Pasture and range conditions were mostly in the good to fair range. Pasture grasses are showing signs of stress due to the dry conditions.

OKLAHOMA DIRECT FEEDER CATTLE SALES  
(05/27-06/03/11)

Confirmed: 500 Last Week: 2726 Last Year: 3741

Compared to last week: Not enough sales to establish an accurate market comparison on feeder cattle. Holiday week and Wheat harvest has country trade at a standstill. Harvest in full swing in Oklahoma for those that have anything to harvest. Supply included 100 percent over 600 lbs; 100 percent steers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

USDA CROP & WEATHER SUMMARY  
(06/13/11)

OKLAHOMA DIRECT FEEDER CATTLE SALES  
(06/03-06/10/11)

Confirmed: 2849 Last Week: 500 Last Year: 5701

The wheat harvest made significant progress during the past week, well ahead of a normal harvest. This was aided by the hot and dry conditions persisting for the last several weeks. Above average heat for June continued across the state with a high of 107 in Freedom and Hollis on Wednesday and average highs in the 90s for all districts. The hot and windy conditions continued to exacerbate the drought that is ongoing in Oklahoma. The US Drought Monitor for June 7th reported an increase in the percentage of the state with drought conditions, although the area with the highest drought rating remained relatively unchanged. Rain was received this past week, mostly over the weekend with 1.41 inches in the North Central district. Topsoil and subsoil moisture conditions continued to decline with 77 percent of topsoil and 81 percent of subsoil rated short to very short respectively.

**Small Grains:** Hot and dry weather allowed for significant progress in the harvesting of all small grains. The wheat harvest was 83 percent complete by Sunday, an increase of 38 points from the week prior. Rye harvested reached 73 percent complete by week's end, well ahead of normal. Oats headed reached 96 percent complete and 88 percent of the crop was in the soft dough stage by Sunday, with 38 percent harvested. Canola was 87 percent harvested by the end of the week, an increase of 37 points from the previous week.

**Row Crops:** Planting is progressing where soil moisture allows and most row crop conditions are rated good to fair, with the exception of cotton. Corn emergence reached 94 percent complete and six percent of the crop was silking by Sunday. Sorghum seedbed preparation was 96 percent complete, while 68 percent was planted and 32 percent of the crop had emerged by week's end. Soybean seedbed preparation was 89 percent complete while 65 percent of the crop was planted and 49 percent had emerged by Sunday. Peanut planting was 89 percent complete by week's end and 87 percent of the crop had emerged, an increase of 31 points. Cotton planted was 80 percent complete and 29 percent of the crop had emerged by Sunday, still 44 points behind normal.

**Hay:** Conditions continued to be rated mostly in the fair to poor range. First cuttings of alfalfa were virtually complete while second cuttings reached 38 percent complete, both behind the five-year average. First cuttings of other hay reached 45 percent complete by Sunday.

**Pasture and Range:** Pasture and range conditions were rated mostly fair to poor, with reports that grasses in some areas have stopped growing due to the drought.

Compared to last week: Feeder steers and heifer trends not well tested against last week's light supply. Demand moderate to good as feeder numbers decline. Weather very hot and dry and more like late July-August temperatures. Wheat harvest is about 80 percent complete in the state and reports have been anywhere from 12-30 bushels an acre. Supply included 100 percent over 600 lbs; 51 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

USDACROP & WEATHER SUMMARY  
(06/20/11)

It was another hot and humid week in Oklahoma as producers continued with wheat harvest across the state. Statewide, summer-like temperatures soared to an excess of 90 degrees, with the highest temperature recorded in Grandfield at 114 degrees. Oklahoma only averaged 0.18 inches of precipitation during the week despite the severe thunderstorms that moved through the state mid-week. The western portion of the state continued to experience drought conditions with much of the Panhandle still experiencing exceptional drought conditions. As the hot temperatures and windy conditions leach out what little moisture is present in the soil, producers are in desperate need of rain. Topsoil and subsoil moisture conditions continue to be rated mostly in the short to very short range with 49 percent of both rated very short. **Small Grains:** Small grain producers continued with harvesting activities as a result of the hot and dry weather. Wheat harvest was 91 percent complete by Sunday, an eight point increase from the week prior, with 21 percent of the ground plowed. Rye harvested reached 89 percent complete by week's end, a 16 point increase from the previous week, and 20 percent of the ground had been plowed. Oats in the soft dough stage reached 93 percent complete, while 71 percent of the crop had been harvested, an increase of 33 points from the previous week. Canola was 90 percent harvested by the end of the week, a three point increase from the previous week.

**Row Crops:** Extremely hot and dry weather has taken its toll on most of the state's row crops and rain is needed to combat the dry conditions. Virtually all of the state's corn had emerged by Sunday and 13 percent of the crop was silking. Planting of sorghum was 83 percent complete, while 49 percent of the crop had emerged. Soybean seedbed preparation was 95 percent complete while 77 percent of the crop was planted and 57 percent had emerged by Sunday. Planting of peanuts was complete by week's end, with 90 percent of the crop emerged by Sunday, a three point increase from the previous week. Cotton planted was 94 percent complete and 45 percent of the crop had emerged by Sunday, 40 points behind the five-year average.

**Hay:** Second cuttings of alfalfa reached 61 percent complete. First cuttings of other hay reached 52 percent complete by Sunday. Conditions for all hay were rated mostly in the fair to very poor range.

**Pasture and Livestock:** Pasture and range conditions were rated mostly fair to poor, with reports of producers reducing livestock numbers due to lack of grazing.

OKLAHOMA DIRECT FEEDER CATTLE SALES  
(06/11-06/16/11)

Confirmed: 6962 Last Week: 2849 Last Year: 3100  
Compared to last week: Feeder steers and heifers steady to 3.00 higher. Demand good. Weather Continues to be hot and dry with no relief in sight. Wheat harvest is wrapping up for another year. Supply included 100 percent over 600 lbs; 63 percent heifers.

**OKLAHOMA HAY REPORT  
(07-07-11)**

Hay trading and movement mostly slow this week on extremely light supplies but very good demand. Demand remains exceptionally strong for dairy and horse hay. Stock cow hay also in very good demand but many cattlemen are thinning herds or selling out completely due to the lack of forage and shrinking stock water supplies. Drought conditions continue to worsen and some eastern counties slipped into the category of extreme drought this week.

While yields continue to be well below average, the overall quality of alfalfa in central Oklahoma is very good. Some grass hay offerings are reported to be lower in quality in many areas. Many producers in central Oklahoma are not offering their grass hay at this time saying they will need it for their own use.

**Alfalfa**

Central Oklahoma: Prices firm to 10.00 higher. Premium quality large square bales \$190.00-205.00. Good quality in large square bales \$160.00-180.00. Most hay sold based on RFV at 1.00 per point. Horse hay in small square bales 230.00-260.00 in light test.

Eastern Oklahoma: Prices steady to firm. Premium quality large square bales \$180.00-200.00. Good quality large square bales 165.00-185.00. Small square bales 6.00-7.00 per bale.

Western Oklahoma: Steady in extremely light test. No sales reported. Some out of state hay reported shipped in but no pricing information provided. Last week's market was 160.00-180.00.

**Grass Hay**

Central Oklahoma: Large round bales of Bermuda and Bermuda mix 80.00-95.00 per ton. Large round bales prairie hay 65.00-80.00 per ton. Small square bales Bermuda hay 4.00-6.00 per bale. Prairie hay 3.50-5.00 per bale.

Western Oklahoma: No sales confirmed on local hay.

Eastern Oklahoma: Good quality Bermuda 60.00-70.00 per ton in large round bales. Prices are dollars per ton and FOB unless otherwise noted.

**OKLAHOMA DIRECT FEEDER CATTLE SALES  
(07/01-07/07/11)**

Confirmed: 6860 Last Week: 13,872 Last Year: 4966  
Compared to last week: Feeder steers and heifers 2.00 to 5.00 higher. Demand good to very good with increased demand for deferred delivered heifers. Futures rally continues to support feeder cattle prices.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA CROP & WEATHER REPORT  
(07-11-11)

Extreme heat continued across the state over the past week. The average high temperatures for all nine districts reached 100 degrees or higher and multiple temperature records were broken across the state. The heat is affecting even the irrigated crops, while the production of hay and availability of grazing and forage continue to be limited. The extreme heat is also affecting Oklahoma's ponds and lakes with reports of fish kills and toxic blue-green algae. The latest U.S. Drought Monitor rates the drought intensity for almost 94 percent of the state as moderate or higher. Topsoil and subsoil moisture conditions continued to be rated mostly very short.

**Small Grains:** An early finish to harvest means that plowing is ahead of normal, although in some areas it is too dry to plow the land. Wheat ground plowed reached 68 percent complete by Sunday, 13 points ahead of normal. Plowing of both rye and oat ground reached 62 percent complete, both ahead of normal.

**Row Crops:** Crop conditions continued to worsen from the expanding drought, with none rated excellent and only peanuts rated mostly good. Corn silking reached 86 percent complete by week's end and 14 percent of the crop had reached the dough stage. Sorghum emerged reached 91 percent complete and 20 percent of the crop was heading by Sunday. Soybean emergence was 95 percent complete and 24 percent of plants were blooming, both ahead of the five-year average. Peanut emergence was completed and 39 percent of plants were pegging by week's end, 27 points behind normal. Cotton emerged reached 75 percent complete by Sunday while cotton squaring was 16 percent complete, both significantly behind the five-year average.

**Hay:** Both the quality and quantity of hay have been affected by the prolonged drought, with lower yields and fewer cuttings expected for the season. Conditions for all hay were rated mostly in the poor to very poor range. Second cuttings of alfalfa reached 82 percent complete and third cuttings reached 11 percent complete, 26 points behind normal. First cuttings of other hay reached 73 percent complete.

**Pasture and Livestock:** Pasture and range conditions were rated mostly poor to very poor. Livestock conditions continue to be rated mostly fair to good. Operators are continuing to sell cattle due to the lack of grazing and the shortage of hay. Nitrate levels are also a concern for cattle producers

PRODUCERS LIVESTOCK SAN ANGELO, TX  
(07-12-11)

### LIVESTOCK

Fed cattle moved two days this reporting week.. On Thursday fed cattle in the Southern Plains were \$2.00-3.50 lower at \$111.00. Wednesday afternoon the price dropped another \$2.50-3.00 at \$108.00. In the Iowa Southern Minnesota Direct hog trade this week the weighted average price on Wednesday was \$2.53 higherer from last week at \$94.35. The estimated cutout value of Choice 600-900 lb. carcasses was \$3.73 lower on the week at \$178.24 on Wednesday with demand moderate on moderate to heavy offerings.

**OKLAHOMA HAY REPORT  
(07-14-11)**

Hay trading and movement continued mostly slow this week on extremely light supplies. Most movement came from out-of-state sources. Demand is extremely good but offerings are extremely light, non-existent in some areas. Demand very good for any alfalfa offered. Stock cow hay demand was also very good. Cow numbers at many state auctions this week over double what they were two weeks ago. A few areas of central Oklahoma received light rainfall this week but it was not enough to be meaningful.

Producers in central and south central Oklahoma say they will not have another cutting of alfalfa. Some north central and east central producers are expected to have one more cutting. Grass hay supplies are also becoming very scarce. Two weeks ago the department's online hay directory contained 28 pages of producers offering hay. Today the directory contains eight pages of listings.

**Alfalfa**  
Central Oklahoma: Prices 5.00 to 15.00 higher. Premium quality large square bales \$200.00-220.00. Good quality in large square bales \$170.00-185.00. Most hay sold based on RFV at 1.00-1.10 per point. Horse hay in small square bales 250.00-270.00 in light test. Small quantities up to 300.00.

Eastern Oklahoma: Prices steady to firm. Premium quality large square bales \$190.00-200.00, instances to 220.00. Good quality large square bales 175.00-185.00. Small square bales 6.00-8.00 per bale.

Western Oklahoma: Steady in extremely light test. No sales reported. Some out of state hay reported shipped in but no pricing information provided.

**Grass Hay**  
Central Oklahoma: Large round bales of Bermuda and Bermuda mix 80.00-95.00 per ton. Large round bales prairie hay 65.00-80.00 per ton. Small square bales Bermuda hay 4.00-6.00 per bale. Prairie hay 3.50-5.00 per bale. Western Oklahoma: No sales confirmed on local hay.

Eastern Oklahoma: Good quality Bermuda 60.00-70.00 per ton in large round bales. Prices are dollars per ton and FOB unless otherwise noted.

**OKLAHOMA DIRECT FEEDER CATTLE SALES**

(07/08-07/15/11)

Confirmed: 13,048 Last Week: 6860 Last Year: 9923  
Compared to last week: Feeder steers 1.00 to 2.00 higher; Feeder heifers steady to 2.00 higher. Demand good on all classes. Osage resumes trading after the holiday week. Local auction markets in Oklahoma back in full swing and many seeing an increase in receipts as the effects of drought begin to take its toll. Supply included 100 percent over 600 lbs; 22 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA HAY REPORT  
(07-28-11)**

Hay movement was slow to moderate this week with bulk of movement originating out of state. Demand remains very good for all types and grades of hay. No alfalfa baling was reported this week and only a few loads of Oklahoma grown alfalfa were reported sold. Grass hay baling activities continue and yields are being reported as dismal. Growers are becoming increasingly reluctant to sell what little hay they have left. The drought continues to worsen and water supplies and forage are drying up. Almost 68 percent of the state is now classified as being a state of extreme or exceptional drought and more than 52 percent under the exceptional category. Cattle liquidation is expected to continue as water and forage supplies run out.

**Alfalfa**

Central Oklahoma: Prices firm to \$10.00 higher. Premium to Supreme quality large square bales \$210.00-230.00. Good quality in large square bales \$170.00-190.00. Most hay sold based on RFV at mostly 1.00, instances 1.10 per point. Horse hay in small square bales \$260.00-300.00 in light test.

Eastern Oklahoma: Prices mostly \$10.00 higher. Premium quality large square bales \$200.00-220.00. Good quality large square and round bales \$180.00-200.00. Small square bales \$8.00 to mostly 10.00 per bale.

Western Oklahoma: Good quality alfalfa \$260.00-270.00 delivered.

**Grass Hay**

Central Oklahoma: Firm to \$10.00 higher. Large round bales of good quality Bermuda, and other mixed grasses \$90.00-120.00, mostly \$100.00 in central and south central areas. Eastern and east central \$90.00-100.00. Small square bales good quality Bermuda and Bermuda mix \$7.50-9.00 per bale.

Western Oklahoma: Few sales large round bales, prairie hay mostly \$100.00.

Eastern Oklahoma: Good quality Bermuda \$90.00-100.00 per ton in large round bales. Some Fair quality mixed grass offerings \$70.00-85.00.

Prices are dollars per ton and FOB unless otherwise noted.

**OKLAHOMA DIRECT FEEDER CATTLE SALES**

(07/22-07/29/11)

Confirmed: 6,694 Last Week: 3,233 Last Year: 5217

Compared to last week: Feeder steers steady; feeder heifers 2.00 to 3.00 higher, recovering some of last week's losses. Demand moderate on all classes. While most trucking issues have been resolved, fewer numbers of feeder cattle offered at most barns. Cows and bulls however continue to exit Oklahoma pastures. Supply included 85 percent over 600 lbs; 43 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA HAY REPORT  
(08-04-11)**

**OKLAHOMA DIRECT FEEDER CATTLE SALES  
(07/29-08/05/11)**

Hay movement was moderate this week with virtually all alfalfa movement confirmed originating from out of state. Grass hay movement was moderate in eastern Oklahoma and slow in other areas. Demand remains very good for hay of any kind. Many buyers are coming to grips with the fact that they will likely have to look to out of state sources for hay. Grass hay baling activities have largely finished. Sellers said many buyers were unwilling or unable to pay current prices. Limited supplies are being held in firm hands. Drought conditions grew considerably worse this week. Over 88 percent of the state is now classified as being a state of extreme or exceptional drought and more than 64 percent under the exceptional category.

Confirmed: 4166 Last Week: 6694 Last Year: 7326

Compared to last week: Feeder steers and heifers steady to 2.00 higher. Demand moderate to good as numbers of feeder cattle begin to dwindle. Weather remains very hot and dry but a chance of cooler weather or at least double digit temps plus slight chances of rain are in the forecast for next week. Supply included 92 percent over 600 lbs; 48 percent heifers. Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**Alfalfa**

Central Oklahoma: Prices firm. Premium to Supreme quality large square bales not established, last week's sales \$210.00-230.00. Fair quality delivered \$190.00-210.00. Most hay sold based on RFV at mostly 1.00 per point. Horse hay in small square bales \$260.00-300.00 in light test.

Eastern Oklahoma: Prices firm. Premium quality large square bales not tested this week, last week's sales \$200.00-220.00. Good quality large square and round bales \$180.00-200.00. Small square bales mostly \$10.00 per bale.

Western Oklahoma: Good quality alfalfa \$260.00-270.00 delivered. Fair quality alfalfa delivery \$210.00-230.00.

**Grass Hay**

Central Oklahoma: Firm to \$10.00 higher. Large round bales of good quality Bermuda, and other mixed grasses \$100.00-120.00, several loads Bermuda \$125.00. Eastern and east central \$90.00-100.00 mostly 100.00. Small square bales good quality Bermuda and Bermuda mix \$7.50-9.00 per bale.

Western Oklahoma: Few sales large round bales mixed grass hay delivered \$150.00-160.00.

Eastern Oklahoma: Good quality Bermuda mostly \$100.00 per ton in large round bales. By the bale \$65.00-70.00 each. Some Fair quality mixed grass offerings \$70.00-90.00.

Prices are dollars per ton and FOB unless otherwise noted.

**OKLAHOMA HAY REPORT  
(08-11-11)**

**OKLAHOMA DIRECT FEEDER CATTLE SALES  
(08/05-12/11)**

Hay movement was slow to moderate this week in most areas. In-state sales very slow on extremely tight supplies. Demand is very strong for dairy and horse hay, strong for stock cow hay. Bulk of movement centered on grass hay offerings. Stock cow liquidation accelerated last month with numbers of cows and bulls at state markets more than doubling last year's movement. Most in-state buyers continue to look out of state for hay and report transportation difficult to arrange in many cases. Rain is moving through the state at the time of this report but is definitely not a drought buster. Conditions continue to deteriorate. Almost 93 percent of the state is now classified as being a state of extreme or exceptional drought and more than 88 percent under the exceptional category.

**Alfalfa**

Central Oklahoma: Prices firm. Premium to Supreme quality large square bales few sales \$210.00-230.00, round bales \$200.00-220.00. Fair quality round bales delivered \$192.00-210.00. Most hay sold based on RFV at mostly 1.00 per point. Horse hay in small square bales \$260.00-300.00 in light test.

Eastern Oklahoma: Prices firm. Premium quality large square bales not tested. Good quality large round bales delivered \$240.00-260.00. Small square bales mostly \$10.00, instances \$12.00 per bale.

Western Oklahoma: Few sales Good quality alfalfa \$260.00-270.00 delivered. Fair quality alfalfa delivery \$210.00-230.00.

**Grass Hay**

Central Oklahoma: Firm. Large round bales of good quality Bermuda, and othermixed grasses \$100.00-125.00. Sudan grass large square bales \$150.00-160.00. Eastern and east central \$90.00-110.00. Small square bales good quality Bermuda and Bermuda mix \$8.00-9.00 per bale.

Western Oklahoma: Few sales large round bales mixed grass hay delivered last week \$150.00-160.00.

Eastern Oklahoma: Good quality Bermuda mostly \$100.00 per ton in large round bales. By the bale \$60.00-70.00 each. Some Fair quality mixed grass offerings \$70.00-90.00.

Prices are dollars per ton and FOB unless otherwise noted.

Compared to last week: Feeder steers and heifers 2.00 to 4.00 lower. Demand moderate as financial and commodity markets seek stability. Trade area received some relief this week with a break in temperatures and scattered thunderstorms. Supply included 96 percent over 600 lbs; 21 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA HAY REPORT  
(08-19-11)**

**OKLAHOMA DIRECT FEEDER CATTLE SALES  
(08/12-19/11)**

Hay movement was slow to moderate in western Oklahoma, moderate in central and eastern counties. Bulk of movement continues to involve hay coming in from out of state in most areas. The exception is portions of eastern Oklahoma where mostly small volume sales are still of local origin. Demand remains very strong for good quality alfalfa and grass hay. Widely scattered and varied rains fell over portions of the state this week bringing a bit of relief. While this did improve the outlook, 100 percent of the state remains classified as being under at least moderate drought.

**Alfalfa**

Central Oklahoma: Prices firm, instances up to \$5.00 higher. Premium quality large square bales few sales delivered 230.00-275.00. Fair quality round bales delivered \$195.00-225.00. Most hay sold based on RFV at mostly 1.00 per point plus delivery. Horse hay in small square bales \$260.00-300.00.

Eastern Oklahoma: Prices firm. Premium quality large square bales not tested. Fair quality large round bales delivered \$200.00-220.00. Small square bales mostly \$10.00, instances \$12.00 per bale.

Western Oklahoma: Few sales Good quality round bales \$260.00-270.00 delivered. Fair quality round bales delivered \$210.00-230.00.

**Grass Hay**

Central Oklahoma: Firm to \$10.00 higher. Large round bales of good quality Bermuda \$100.00-125.00. Prairie hay and other mixed grasses \$90.00-100.00/Sudan grass large square bales \$150.00-160.00. Eastern and east central mostly \$90.00-110.00. Small square bales good quality Bermuda and Bermuda mix \$8.00-9.00 per bale.

Western Oklahoma: No sales confirmed.

Eastern Oklahoma: Good quality Bermuda \$100.00-120.00 per ton in large round bales. By the bale \$65.00-100.00 each. Some Fair quality mixed grass offerings \$80.00-

Prices are dollars per ton and FOB unless otherwise noted.

Confirmed: 2304 Last Week: 5726 Last Year: 7628

Compared to last week: Feeder cattle lightly tested and 2.00-5.00 higher. Demand moderate to good as numbers dwindle. The whole state received rains last week but mainly up to 3 inches was received but this was surely no drought buster. Looking to the gulf for something tropical to bring some real rain to the state. Supply included 96 percent over 600 lbs; 48 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

### LIVESTOCK

The fed cattle trade in the Southern Plains, and other major feedlot areas was inactive this week on light demand. The fed cattle market was not tested since last Wednesday when cattle traded at \$112.50. In the Iowa Southern Minnesota Direct hog trade this week the weighted average price on Wednesday was \$9.82 lower from last week at \$85.36. The estimated cut-out value of Choice 600-900 lb. carcasses was \$4.83 lower on the week at \$182.79 on Wednesday on light to moderate demand and moderate to heavy offerings.

**OKLAHOMA HAY REPORT  
(08-25-11)**

**OKLAHOMA DIRECT FEEDER CATTLE SALES  
(08/19-25/11)**

Hay movement was mostly moderate throughout the state this week. In-state sales were mostly light to moderate with the bulk of movement originating out of state. The limited rainfall received two weeks ago did afford some light cutting and baling in a few areas. Demand is very good for virtually all offerings. The sense of "panic buying" seems to have diminished over the past week to 10 days. Hay is being delivered from a number of states but trucking has been an issue for some areas. Over 85% of Oklahoma is in Extreme to Exceptional drought conditions and almost 67% falls under the more severe Exceptional status.

Confirmed: 780 Last Week: 2304 Last Year: 7628

**Alfalfa**

Central Oklahoma: Prices firm to \$10.00 higher. Premium quality large square bales few sales delivered 240.00-285.00. Fair quality round bales delivered \$200.00-230.00. Most hay sold based on RFV at mostly 1.00 per point plus delivery. Horse hay in small square bales \$275.00-325.00.

Eastern Oklahoma: Prices firm. Premium quality large square bales not tested. Fair quality large round bales delivered \$200.00-230.00. Small square bales mostly \$10.00, instances \$12.00 per bale.

Western Oklahoma: Few sales Good quality round bales \$260.00-270.00 delivered. Fair quality round bales delivered \$210.00-230.00.

**Grass Hay**

Central Oklahoma: Firm. Large round bales of good quality Bermuda \$100.00-125.00. Prairie hay and other mixed grasses \$90.00-100.00. Eastern and east central mostly \$90.00-110.00. Small square bales good quality Bermuda and Bermuda mix \$8.00-9.00 per bale.

Western Oklahoma: Few loads good quality Bermuda delivered \$185.00 per ton.

Eastern Oklahoma: Good quality Bermuda \$100.00-120.00 per ton in large round bales. By the bale \$65.00-100.00 each. Some Fair quality mixed grass offerings \$80.00-90.00.

Prices are dollars per ton and FOB unless otherwise noted.

Compared to last week: Feeder steers not tested. Feeder heifers 5.00-6.00 lower on heifers priced for \* Dec-Jan \* delivery. Demand light as everyone waits to see where the market is going. Supply included 100 percent over 600 lbs; 92 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

### LIVESTOCK

The fed cattle trade in the Southern Plains, and other major feedlot areas was very slow again this week and demand was light. Limited sales were reported Friday at \$113.00. In the Iowa Southern Minnesota Direct hog trade this week the weighted average price closed was \$3.19 lower from last week at \$82.17. The estimated cut-out value of Choice 600-900 lb. carcasses was \$2.11 lower from last week at \$180.68 on Tuesday on light demand and light to moderate offerings.

#### WOODWARD LIVESTOCK AUCTION (09/02/11)

**OKLAHOMA HAY REPORT  
(09-01-11)**

**OKLAHOMA DIRECT FEEDER CATTLE SALES  
(08/25-09/02/11)**

Hay movement continued mostly moderate this week. Bulk of hay selling continues to come from out of state but light baling activities continue in portions of central and eastern Oklahoma. High temperatures, low humidity and windy conditions saw fire danger increase sharply this week and numerous wildfires occurred. Haying activities very risky and several equipment fires were reported. Demand is very good for alfalfa and Good quality grass hay, moderate to good for Fair quality grass hay. The lack of stock water is a growing concern and forcing live-stock owners to sell or move stock.

**Alfalfa**

Central Oklahoma: Prices firm. Premium quality large square bales few sales delivered 240.00-285.00. Fair quality round bales delivered \$200.00-230.00. Most hay sold based on RFV at mostly 1.00 per point plus delivery. Horse hay in small square bales \$275.00-330.00.

Eastern Oklahoma: Prices firm. Premium quality large square bales not tested. Fair quality large round bales delivered \$200.00-230.00. Small square bales mostly \$10.00-12.00 per bale.

Western Oklahoma: Few sales Good quality round bales \$260.00-275.00 delivered. Fair quality round bales delivered \$200.00-230.00.

**Grass Hay**

Central Oklahoma: Firm. Large round bales of good quality Bermuda \$100.00-125.00. Prairie hay and other mixed grasses \$90.00-100.00. Eastern and east central mostly \$90.00-110.00. Small square bales good quality Bermuda and Bermuda mix \$8.00-9.00 per bale.

Western Oklahoma: Several loads good quality Bermuda delivered \$175.00-180.00 per ton.

Eastern Oklahoma: Good quality Bermuda \$100.00-120.00 per ton in large round bales. By the bale \$60.00-100.00 each mostly 65.00-80.00. Some Fair quality mixed grass offerings \$80.00-90.00.

Prices are dollars per ton and FOB unless otherwise noted.

Confirmed: 4215 Last Week: 780 Last Year: 5446

Compared to last week: Not enough comparable sales to establish an accurate market trend but a steady undertone noted. Demand moderate. Rising feed costs and cost of gain weighs heavy on the minds of feedlots and have tempered feeder prices even as receipts have shortened. Supply included 97 percent over 600 lbs; 23 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

### LIVESTOCK

The fed cattle trade in the Southern Plains, and other major feedlot areas was very slow again this week and demand was light. Limited sales were reported Friday at \$113.00. In the Iowa Southern Minnesota Direct hog trade this week the weighted average price closed was \$3.19 lower from last week at \$82.17. The estimated cut-out value of Choice 600-900 lb. carcasses was \$2.11 lower from last week at \$180.68 on Tuesday on light demand and light to moderate offerings.

**OKLAHOMA HAY REPORT**  
(09-08-11)

Hay movement light to moderate. Very few in-state sales confirmed this week with the bulk originating out of state. Lower temperatures over the weekend are very welcome but the continued lack of moisture means no real relief from drought conditions. The interstates are seeing a great deal of movement but it appears the bulk of these trucks are continuing into Texas. Availability of trucks to move hay has been a problem for the past few weeks and was reported to be worsening this week. Buyers reported having difficulty finding Premium and Supreme alfalfa this week. Demand is very good for these quality offerings, moderate to good for Good and Fair quality alfalfa. Grass hay demand continues to be good for Good quality offerings, light to moderate for Fair quality.

**Alfalfa**

Central Oklahoma: Prices firm to 20.00 higher on Premium quality, firm on Good and Fair quality. Premium quality large square bales delivered 260.00-300.00. Good to Fair quality round bales delivered \$200.00-230.00. Most hay sold based on RFV at mostly 1.00 per point plus delivery. Horse hay in small square bales \$280.00-330.00.

Eastern Oklahoma: Prices firm. Premium quality large square bales not tested. Fair quality large round bales delivered \$200.00-230.00. Small square bales \$10.00-12.00 per bale.

Western Oklahoma: Few sales Good quality round bales \$265.00-280.00 delivered.

**Grass Hay**

Central Oklahoma: Firm. Large round bales of good quality Bermuda \$100.00-125.00. Prairie hay and other mixed grasses \$90.00-100.00. Eastern and east central mostly \$90.00-110.00. Small square bales good quality Bermuda and Bermuda mix \$8.00-9.00 per bale.

Western Oklahoma: No sales confirmed, last week a few sales confirmed at \$175.00-180.00.

Eastern Oklahoma: Good quality Bermuda \$100.00-120.00 per ton in large round bales. By the bale \$65.00-100.00 each mostly 70.00-90.00. Some Fair quality mixed grass offerings \$80.00-90.00.

Prices are dollars per ton and FOB unless otherwise noted.

**OKLAHOMA DIRECT FEEDER CATTLE SALES**  
(09/03-09/09/11)

Confirmed: 5819 Last Week: 4215 Last Year: 1574

Compared to last week: Feeder steers and heifers steady to 2.00 higher. Demand good for feeder cattle as futures turned more favorable for sellers. Weather continues extremely dry though temps have cooled back into the mid to low 80's. soil moisture is now a major concern for wheat farmers getting ready to sow wheat.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

### Weather Summary (09/19/11)

The week began with triple digit heat, as high as 109 degrees in Walters in the West Central district, but storms during the latter half of the week brought cooler weather. Rainfall was very light in most of western Oklahoma. The coveted rainfall was only the beginning of what was needed to obtain planting moisture for wheat, so producers continued waiting and weighing their options for the fall. Livestock producers are also struggling as they wait for more rain. The lack of hay and pasture coupled with low pond levels forced operators to continue selling

GULF EXPORT								

**OKLAHOMA HAY REPORT  
(09-16-11)**

Hay trade light to moderate, movement mostly moderate. Confirmed sales very light this week but demand remains very good for dairy and horse quality alfalfa. Grass hay demand also good but buyers are resisting higher asking prices. Cooler temperatures and light rain at the end of this week have been welcome but will do little in terms of drought relief. Forecasts for continued warm, dry weather are prompting more herd reductions. Transportation issues still a problem with brokers reporting difficulty locating trucks. Quality also still an issue with very little Premium and Supreme quality alfalfa offered.

**Alfalfa**

Central Oklahoma: Prices firm on all offerings. Premium quality large square bales delivered 270.00-300.00. Good to Fair quality round bales delivered \$200.00-230.00. Most hay sold based on RFV at mostly 1.00 to 1.10 per point plus delivery. Horse hay in small square bales \$280.00-330.00.

Eastern Oklahoma: Prices firm. Premium quality large square bales not tested. Fair quality large round bales delivered \$200.00-230.00. Small square bales \$10.00 to 12.00 per bale.

Western Oklahoma: No sales confirmed.

**Grass Hay**

Central Oklahoma: Firm. Large round bales of good quality Bermuda \$100.00-125.00. Prairie hay and other mixed grasses \$90.00-100.00. Eastern and east central mostly \$90.00-110.00. Small square bales good quality Bermuda and Bermuda mix \$8.00-9.00 per bale.

Western Oklahoma: No sales confirmed, last week a few sales confirmed at \$175.00-180.00.

Eastern Oklahoma: Good quality Bermuda \$100.00-120.00 per ton in large round bales. By the bale \$65.00-100.00 each mostly 70.00-90.00. Some Fair quality mixed grass offerings \$80.00-90.00.

Prices are dollars per ton and FOB unless otherwise noted.

**OKLAHOMA DIRECT FEEDER CATTLE SALES**

(09/09-09/16/11)

Confirmed: 6652 Last Week: 5819 Last Year: 4058

Compared to last week: Feeder steers not well tested for current delivery, but lower undertone noted. Feeder heifers steady to 1.00 lower. Demand moderate to good for limited numbers of feeder cattle. Out front months remain steady to higher with current cash markets, making it favorable to sellers to contract cattle. Weather remains dry, despite strong chance of rain over the next few days. Spotty showers are being reported around the state, however not much measurable rainfall is occurring.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

### Crop & Weather Summary (09/26/11)

It's official, the wheat and canola planting season has begun for the 2011 - 2012 season. The rains last week, ranging from 0.08 of an inch in the South Central district to 0.99 of an inch in the Northeast district, gave producers some moisture to start planting. Wheat planting progress was 20 points behind the five-year average and canola planting was 19 points behind last year. The past week's precipitation brought little relief to topsoil moisture conditions with 66 percent of the state rated very short and 82 percent of subsoil rated very short.

**OKLAHOMA HAY REPORT  
(09-22-11)**

Hay trade and movement light to moderate. Demand very good for dairy and horse quality alfalfa. Demand for grinding quality hay generally moderate but improved over the past few weeks. Grass hay demand good to very good. A good deal of lower quality, rough grass hay is being offered, most coming from out of state. Rain moved into the state last night and lasted through mid-day. Precipitation amounts varied from a trace to 2 inches according to early reports. Much of southern and northwestern Oklahoma missed this rain. This moisture has built hope for wheat pasture in some areas. The lack of trucks to transport hay from out of state seems to be worsening and a few brokers were forced to refund money to buyers over the past two weeks due to lack of transportation.

**Alfalfa**

Central Oklahoma: Prices firm to 10.00 higher. Premium quality large square bales delivered 280.00-310.00. Good quality round bales delivered 250.00-265.00; Fair quality round bales delivered \$210.00-240.00. Most hay sold based on RFV at mostly 1.00 to 1.10 per point plus delivery. Horse hay in small square bales \$300.00-330.00.

Eastern Oklahoma: Prices firm to 10.00 higher. Premium quality large square bales not tested. Fair quality large round bales delivered \$210.00-240.00. Small square bales \$10.00 to 12.00 per bale.

Western Oklahoma: Good quality round bales delivered 260.00-265.00.

**Grass Hay**

Central Oklahoma: Large round bales of good quality Bermuda 70.00-80.00 per bale, instances \$100.00 per bale on 5 X 6 bales. Prairie hay and other mixed grasses \$90.00-110.00 per ton. Small square bales good quality Bermuda and Bermuda mix \$8.00-9.00 per bale. Prairie hay 6.00-8.00 per bale.

Western Oklahoma: No sales confirmed.

Eastern Oklahoma: Good quality Bermuda \$100.00-120.00 per ton in large round bales. By the bale \$65.00-100.00 each mostly 70.00-90.00. Some Fair quality mixed grass offerings \$80.00-90.00.

Prices are dollars per ton and FOB unless otherwise noted.

**OKLAHOMA DIRECT FEEDER CATTLE SALES  
(09/16-09/23/11)**

Confirmed: 4931 Last Week: 6652 Last Year: 4732  
Compared to last week: Feeder steers steady to 1.00 higher. Heifers 2.00-4.00 higher with most current trades weighing under 650 lbs. Forward contracts into next year continue to look favorable to the seller as these prices remain above the current cash market. Cold front brought rains to much of the state with western Oklahoma seeing mostly 3/4 inch and eastern Oklahoma seeing 1-2 inches. Temperatures back in the 80's and the recent moisture has some farmers busy drilling wheat.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT (10-06-11)

Hay trade and movement moderate. Demand was good for Premium through Good quality alfalfa dairy and grinding hay as well as horse quality alfalfa.

Alfalfa

Central Oklahoma: Prices firm. Premium quality large square bales delivered 280.00-310.00, instances 320.00-340.00. Good quality round bales delivered 250.00-265.00.

Eastern Oklahoma:

Prices firm. Premium quality large square bales not tested. Fair quality large round bales delivered \$210.00-240.00. Small square bales \$10.00 to 12.00 per bale.

Western Oklahoma: No sales confirmed.

Grass Hay

Central Oklahoma: Large round bales of good quality Bermuda 70.00-80.00 per bale, instances \$100.00 per bale on 5 X 6 bales. Prairie hay and other mixed grasses \$90.00-110.00 per ton.

Western Oklahoma: Few loads good to fair quality 160.00-170.00 delivered.

Eastern Oklahoma: Good quality Bermuda \$100.00-120.00 per ton in large round bales. By the bale \$65.00-100.00 each mostly 70.00-90.00. Some Fair quality mixed grass offerings \$80.00-90.00.

Prices are dollars per ton and FOB unless otherwise noted.

Table with 3 columns: SOYBEANS, MILO, CORN. Rows list prices for various days and bushels.

OKLAHOMA DIRECT FEEDER CATTLE SALES (09/30-10/07/11)

Confirmed: 2211 Last Week: 3372 Last Year: 4547

Compared to last week: Feeder steers sold 2.00 to 3.00 higher. Feeder heifers firm. Higher feedlot trade the last couple of weeks lends support to feeder markets.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

Feeder Steers Medium and Large 1

Table with 5 columns: Wt Range, Avg Wt, Price Range, Avg Price, Delivery. Rows include weights like 550, 600, 650, 700-731, 775, 867, 800.

Feeder Steers Medium and Large 1-2

Table with 5 columns: Wt Range, Avg Wt, Price Range, Avg Price, Delivery. Rows include weights like 517, 649, 775-779.

Feeder Heifers Medium and Large 1

Table with 5 columns: Wt Range, Avg Wt, Price Range, Avg Price, Delivery. Rows include weights like 525, 600-641, 750, 500.

Feeder Heifers Medium and Large 1-2

### Crop & Weather Summary (10/17/11)

The rainfall from last week continued to benefit producers as many were able to plant small grains and canola. Wheat and other crops planted in dry ground emerged after the beneficial rainfall with about a third of wheat, canola and rye reported as emerged by the end of the week. This is well behind our normal emergence for this time of the year. The entire state was still in a severe to exceptional drought. Recent rainfall was soaked up by thirsty soils leaving little runoff for stock ponds, which were critically low in most of the state.

### WOODWARD LIVESTOCK AUCTION (10/14/11)

Receipts: 4850 Last Week: 5225 Year Ago: 6270

**OKLAHOMA HAY REPORT  
(10-13-11)**

Hay trade mostly moderate. Demand good for virtually all offerings of alfalfa. Demand especially good for Dairy quality offerings. Supplies are becoming increasingly tight and both buyers and sellers expressed concerns about availability. Much of western and central Oklahoma received rain over the weekend. Amounts ranged from only a trace to over 4 inches. A great deal of wheat is now planted. Grass hay baling continues in some areas but yields and quality are disappointing in most cases. More soybean and milo hay offered this week to fairly good demand.

Alfalfa Central Oklahoma: Prices firm. Premium quality large square bales delivered 295.00-330.00. Good quality round bales delivered 260.00-275.00. Fair quality round bales delivered \$230.00-245.00. Most hay sold based on RFV at mostly 1.00 to 1.10 per point plus delivery. Horse hay in small square bales \$320.00-360.00, by the bale \$9.00-12.00.

Eastern Oklahoma: Prices firm. Premium quality large square bales not tested. Fair quality large round bales delivered \$210.00-240.00. Small square bales \$10.00 to 12.00 per bale.

Western Oklahoma: Few loads grass/alfalfa mixed delivered \$200.00-210.00.

**Grass Hay**

Central Oklahoma: Large round bales of good quality Bermuda 90.00-120.00 per bale, mostly \$100.00 per bale on 5 X 6 bales. Prairie hay and other mixed grasses \$90.00-110.00 per ton. Small square bales good quality Bermuda and Bermuda mix \$8.00-9.00 per bale. Prairie hay 6.00-9.00 per bale.

Western Oklahoma: Good quality 165.00-175.00 delivered. Millet hay \$180.00.

Eastern Oklahoma: Good quality Bermuda \$100.00-130.00 per ton in large round bales. Most of this Bermuda hay and other grass hay being sold by the bale \$90.00-110.00 each mostly \$100.00. Some Fair quality mixed grass offerings \$70.00-90.00 per bale.

Prices are dollars per ton and FOB unless otherwise noted.

**OKLAHOMA DIRECT FEEDER CATTLE SALES  
(10/08-10/14/11)**

Confirmed: 7404 Last Week: 2211 Last Year: 1149

Compared to last week: Feeder steers and heifers steady to 4.00 higher. Demand good especially for early 2012 deliveries. This due to expected lighter supplies in the coming months. Nice rains of 1-3 inches fell across much of Western and Central Oklahoma last weekend helping to improve wheat pasture some. However because there was very little soil moisture, more rain is needed to sustain the wheat.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**Crop & Weather Summary (10/24/11)**

The past week brought scattered rain, hail, and freezing temperatures across much of the state. Rain was reported in seven of the nine reporting districts with both Panhandle and West Central districts reporting no measurable rain, while the Southeast district reported 1.46 inches. While the recent rains were welcomed, the state remains in a severe-to-exceptional drought, which has sparked concerns over reservoir levels in eastern Oklahoma. Topsoil moisture conditions declined from last week with 31 percent rated very short, compared to 28 percent last week..

**WOODWARD LIVESTOCK AUCTION

**OKLAHOMA HAY REPORT  
(10-21-11)**

Hay trade slow to moderate. Demand very good for dairy and horse quality hay, moderate to good for other offerings. Supplies are virtually non-existent in-state but out-of-state offerings continue being offered and supplies moving into or through the state daily. Transportation availability continues to be a problem and shipping costs were reported slightly higher again this week. Many areas of central and eastern Oklahoma received a light frost this week. Last week's rains have helped green up pastures and promoted wheat emergence. More rain will be needed to establish winter grazing.

**Alfalfa Central Oklahoma:**

Prices firm. Premium quality large square bales delivered 295.00-330.00. Good quality round bales delivered 260.00-275.00. Fair quality round bales delivered 230.00-245.00. Most hay sold based on RFV at mostly 1.00 to 1.10 per point plus delivery. Horse hay in small square bales 320.00-360.00, by the bale 9.00-12.00.

**Eastern Oklahoma:** Prices firm. Premium quality large square bales not tested. Fair quality large round bales delivered 210.00-230.00, few 240.00. Small square bales 10.00 to 12.00 per bale.

**Western Oklahoma:** Few loads grass/alfalfa mixed delivered \$200.00-210.00.

**Grass Hay Central Oklahoma:**

Large round bales of good quality Bermuda 90.00-120.00 per bale, mostly \$100.00 per bale on 5 X 6 bales. Prairie hay and other mixed grasses \$90.00-110.00 per ton. Small square bales good quality Bermuda and Bermuda mix \$8.00-9.00 per bale. Prairie hay 6.00-9.00 per bale.

**Western Oklahoma:** Good quality 162.50-175.00 delivered. Millet hay \$180.00.

**Eastern Oklahoma:** Prices firm to 10.00 higher. Good quality Bermuda \$100.00-130.00 by the bale (5X6), no sales confirmed on a per ton basis. Some Fair quality mixed grass offerings in 4X5 and 5X5 bales 75.00-100.00 per bale.

Prices are dollars per ton and FOB unless otherwise noted.

**OKLAHOMA DIRECT FEEDER CATTLE SALES**

(10/15-10/21/11)

Confirmed: 2859 Last Week: 7404 Last Year: 5161

Compared to last week: Not enough comparable sales to establish an accurate market trend but a firm undertone noted. Demand remains good for early 2012 deliveries. While continued moisture is needed, emerging wheat pastures contribute to improved demand. Temperatures beginning to cool off below 40 degrees at night as fall weather sets in. Supply included 99 percent over 600 lbs; 69 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

### Crop & Weather Summary (10/31/11)

Several rains during the past month have benefitted the wheat, rye and canola planted, although emergence has been behind normal due to the late planting. The condition of wheat and rye was rated mostly good to fair and canola was rated mostly fair. Additional rainfall is needed to replenish the huge deficit of subsoil moisture, as the state was still in a severe to exceptional drought as of the October 25th Drought Monitor. Rainfall on Thursday averaged just over half an inch across the state. The northern third of the state missed most of the rainfall last week

### WOODWARD LIVESTOCK AUCTION (10/28/11)

Receipts: 3607 Last Week: 4920 Last Year: 4700  
Compared to last week: Feeder steers steady to 2.00 lower. Feeder heifers steady. Steer calves steady. Heifer calves steady, except 5 weights 2.00 higher.. Slaughter cows steady to 2.00 higher, most advance on lean cows. Slaughter bulls steady.

**OKLAHOMA HAY REPORT  
(10-28-11)**

Hay trade mostly moderate. Demand very good for dairy and horse quality hay, moderate to good for other offerings. Transportation issues continue to be the main concern with availability decreasing and shipping costs seen as prohibitive. A small amount of clean-up type baling still ongoing but not enough to speak of. More rains were received this week and pastures have greened substantially but little if any growth noted. Colder weather has moved into the state but so far any frost has been fairly light except in far northwestern counties. Herd reductions seem to be winding down as receipts at state auction markets are finally showing signs of slowing.

**Alfalfa Central Oklahoma:**

Prices 5.00-10.00 higher. Premium quality large square bales delivered 300.00-330.00. Good quality round bales delivered 260.00-275.00. Fair quality round bales delivered 230.00-245.00. Most hay sold based on RFV at mostly 1.00 to 1.10 per point plus delivery. Horse hay in smallsquare bales 320.00-360.00, by the bale 9.00-12.00.

**Eastern Oklahoma:** Prices firm. Premium quality large square bales not tested. Fair quality large round bales delivered 220.00-240.00. Small square bales 10.00 to 12.00 per bale.

**Western Oklahoma:** Fair to Good round bales delivered \$210.00-240.00.

**Grass Hay Central Oklahoma:**

Large round bales of good quality Bermuda 90.00-120.00 per bale, mostly \$100.00 per bale on 5 X 6 bales. Prairie hay and other mixed grasses \$90.00-110.00 per ton. Small square bales good quality Bermuda and Bermuda mix \$8.00-9.00 per bale. Prairie hay 6.00-9.00 per bale.

**Western Oklahoma:** Good quality 165.00-180.00 delivered.

**Eastern Oklahoma:** Prices firm to 10.00 higher. Good quality Bermuda \$100.00-130.00 by the bale (5X6), no sales confirmed on a per ton basis. Some Fair quality mixed grass offerings in 4X5 and 5X5 bales 75.00-100.00 per bale.

Prices are dollars per ton and FOB unless otherwise noted.

**OKLAHOMA DIRECT FEEDER CATTLE SALES  
(10/22-10/28/11)**

Confirmed: 4670 Last Week: 2859 Last Year: 3310  
Compared to last week: Feeder steers 2.00-4.00 higher. Feeder heifers not well tested for current delivery. Demand very good for forward contracts as the idea of limited offerings in the coming months continues to rule. Rains continue to fall across the state about once a week at the rate of .5-1 inch at a time. Slowly but surely we are overcoming a part of this summer's drought. Temperatures also turned much colder with parts of Northwestern Oklahoma seeing it's first freeze.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA HAY REPORT  
(11-03-11)**

Hay trade moderate. Demand very good for dairy and horse quality hay, moderate to good for other offerings. Offerings of Premium and Supreme quality hay seem reported very light. The bulk of sales this week confirmed on Fair and Good quality alfalfa. Northwestern Oklahoma received the first hard freeze of the season this week and more freezing temperatures are forecast for most of the state tonight and tomorrow morning. A moderate amount of wheat has emerged in portions of central and western Oklahoma but more rain and moderate temperatures are needed for pasture development. Trucking shortages remain a concern and buyers reported rate increases.

**Alfalfa Central Oklahoma:**

Prices steady to firm. Premium quality large square bales delivered 300.00-330.00. Good quality round bales delivered 250.00-275.00. Fair quality round bales delivered 220.00-245.00. Most hay sold based on RFV at mostly 1.00, instances 1.10 per point plus delivery. Horse hay in small square bales 320.00-360.00, by the bale 9.00-12.00.

**Eastern Oklahoma:** Prices firm. Premium quality large square bales not tested. Fair quality large round bales delivered 220.00-240.00. Small square bales 10.00 to 12.00 per bale.

**Western Oklahoma:** Fair to Good round bales delivered \$210.00-240.00. Good millet hay 180.00.

**Grass Hay Central Oklahoma:**

Large round bales of good quality Bermuda 90.00-120.00 per bale, mostly \$100.00 per bale on 5 X 6 bales. Prairie hay and other mixed grasses \$90.00-110.00 per ton. Small square bales good quality Bermuda and Bermuda mix \$8.00-9.00 per bale. Prairie hay 6.00-9.00 per bale.

**Western Oklahoma:** Good quality 165.00-180.00 delivered.

**Eastern Oklahoma:** Prices firm to 10.00 higher. Good quality Bermuda \$100.00-130.00 by the bale (5X6), no sales confirmed on a per ton basis. Some Fair quality mixed grass offerings in 4X5 and 5X5 bales 75.00-100.00 per bale.

Prices are dollars per ton and FOB unless otherwise noted.

**OKLAHOMA DIRECT FEEDER CATTLE SALES**

(10/29-11/04/11)

Confirmed: 7998 Last Week: 4670 Last Year: 3111

Compared to last week: Feeder steers mostly steady. Feeder heifers not well tested for current delivery. Demand for forward contracted cattle remains very good. Temperatures continue to dip lower with a cold Northern wind moving in Wednesday afternoon.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

This report along with archived reports, current market prices, and other available state reports are accessible online at:  
<http://www.ag.ok.gov/mktdev-newshome.htm>

A significant and sometimes severe storm system brought much needed rainfall into the state this past week. Although the panhandle received only about 0.6 of an inch, other areas averaged over 2 inches of rain. Not a drought buster but very beneficial to wheat and other winter forage. Wheat planting is over 96 percent complete and 86 percent had emerged by Sunday. The November 8 drought monitor showed some improvement with about two-thirds of the state in extreme to exceptional drought, compared to over 85 percent the previous week. Some areas received run-off rains that partially replenished stock ponds.

## WOODWARD LIVESTOCK AUCTION (11/11/11)

Receipts: 4855 Last Week: 4370 Year Ago: 4600

**OKLAHOMA HAY REPORT  
(11-09-11)**

Hay trade moderate. Demand very good for dairy and horse quality hay, good for other offerings. Much of the state received light to heavy rainfall this week and this will benefit winter pastures and wheat. USDA-NASS estimates 95 percent of wheat has been planted and 81 percent emerged this week. Ponds and lakes do not appear to have received much improvement from the recent rains as most soaked in the ground. Livestock water supplies continue to be a major concern for many producers in southern and western counties. Tornadoes and earthquakes in Oklahoma this week served to highlight this very unusual year for producers.

**Alfalfa Central Oklahoma:**

Prices steady to firm. Premium quality large square bales delivered limited sales 300.00-330.00. Good quality round bales delivered 260.00-275.00. Fair quality round bales delivered 220.00-245.00. Most hay sold based on RFV at mostly 1.00 to 1.10 per point plus delivery. Horse hay in smallsquare bales 320.00-360.00, by the bale 9.00-12.00.

**Eastern Oklahoma:** Prices firm. Premium quality large square bales not tested. Fair quality large round bales delivered 220.00-240.00. Small square bales 10.00 to 12.00 per bale.

**Western Oklahoma:** Fair to Good round bales delivered several loads \$210.00-240.00.

**Grass Hay Central Oklahoma:**

Large round bales of good quality Bermuda 100.00-120.00 per bale on 5 X 6 bales. Prairie hay and other mixed grasses \$90.00-110.00 per ton. Small square bales good quality Bermuda and Bermuda mix \$8.00-9.00 per bale. Prairie hay 6.00-9.00 per bale.

**Western Oklahoma:** Good quality 165.00-180.00 delivered.

**Eastern Oklahoma:** Prices steady. Good quality Bermuda \$100.00-130.00 by the bale (5X6), no sales confirmed on a per ton basis. Some Fair quality mixed grass offerings in 4X5 and 5X5 bales 75.00-100.00 per bale.

Prices are dollars per ton and FOB unless otherwise noted.

**OKLAHOMA DIRECT FEEDER CATTLE SALES**

(11/04-11/11/11)

Confirmed: 5016 Last Week: 7998 Last Year: 7795  
Compared to last week: Feeder steers steady to 4.00 higher. Feeder heifers not well tested for current delivery. Demand for feeders continues to be good as the number of yearlings diminishes and feedlot trade sharply higher this week. Futures contracts continue to be favorable out front. .

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

This report along with archived reports, current market prices, and other available state reports are accessible online at:  
<http://www.ag.ok.gov/mktdev-newshome.htm>

A significant rainfall event Monday brought a good soaking rain, especially in southeast Oklahoma. All Mesonet stations recorded rainfall for the week with an average of 1.61 inches for the state. The Southeast district received an average of 3.91 inches of rain, with a high of 4.86 inches measured at Talihina. Precipitation for the last 30 days was above normal in all districts and 146 percent of normal for the state. However, rainfall was still below normal for all districts for the period since September 1. The additional moisture helped small grain conditions and improved the availability of wheat grazing this fall.

## WOODWARD LIVESTOCK AUCTION (11/18/11)

Receipts: 5665 Last Week: 4855 Last Year: 4700

**OKLAHOMA HAY REPORT  
(11-18-11)**

Hay trade and movement moderate. Demand very good for dairy and horse quality hay, good for other offerings. Much colder temperatures have moved into the state and supplemental feeding increased in response. Heavy rainfall is forecast for early next week. Trucking costs and availability of transportation remain a major factor in the hay markets. Numerous loads of hay purchased in other states are waiting on trucks to bring them to the state.

**Alfalfa Central Oklahoma:**

Prices steady to firm. Premium quality large square bales delivered limited sales 300.00-330.00. Good quality round bales delivered 260.00-275.00. Fair quality round bales delivered 220.00-245.00. Most hay sold based on RFV at mostly 1.00 to 1.10 per point plus delivery. Horse hay in small square bales 320.00-360.00, by the bale 9.00-12.00.

Eastern Oklahoma: Prices firm. Premium quality large square bales not tested. Fair quality large round bales, no new sales confirmed, last confirmed sales 220.00-240.00. Small square bales 10.00 to 12.00 per bale.

Western Oklahoma: Fair to Good round bales delivered several loads \$210.00-240.00. Millet hay 180.00 per ton.

**Grass Hay Central Oklahoma:**

Large round bales of good quality Bermuda 100.00-120.00 per bale on 5 X 6 bales. Prairie hay delivered from out of state 160.00-200.00 per ton. Small square bales good quality Bermuda and Bermuda mix \$8.00-9.00 per bale. Prairie hay 6.00-9.00 per bale.

Western Oklahoma: Good quality 165.00-200.00 delivered.

Eastern Oklahoma: Prices steady. Good quality Bermuda \$100.00-130.00 by the bale (5X6), no sales confirmed on a per ton basis. Some Fair quality mixed grass offerings in 4X5 and 5X5 bales 75.00-100.00 per bale.

Prices are dollars per ton and FOB unless otherwise noted.

**OKLAHOMA DIRECT FEEDER CATTLE SALES  
(11/18-11/25/11)**

Confirmed: 3294 Last Week: 3128 Last Year: 8516  
Compared to last week: Not enough comparable sales for an accurate market comparison on current deliveries, a lower undertone noted on heifers. Demand moderate on a holiday week.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA HAY REPORT  
(12-01-11)**

**OKLAHOMA DIRECT FEEDER CATTLE SALES  
(11/25-12/02/11)**

Hay trade moderate, movement significantly slower than in previous weeks. Demand very good for dairy and horse quality alfalfa, good for other offerings. Grass hay demand moderate in eastern Oklahoma, good in central and western counties. Demand especially good for dairy quality alfalfa in large square bales which are becoming hard to find in some areas. Gov. Fallin extended the height and weight restrictions for trucks hauling hay. This will be especially helpful for trucks hauling large round bales.

**Alfalfa Central Oklahoma:**

Prices firm to 20.00 higher than last week's quotes. Premium quality large square bales delivered limited sales 310.00-350.00, few loads to 380.00 south central. Good quality round bales delivered 260.00-275.00, instances to 300.00. Most hay sold based on RFV at mostly 1.00 to 1.10 per point plus delivery. Horse hay in small square bales 320.00-360.00, by the bale 9.00-12.00.

**Eastern Oklahoma:** Prices firm. Premium quality large square bales not tested. Good quality large round bales 250.00-280.00 delivered. Small square bales 10.00 to 12.00 per bale.

**Western Oklahoma:** Premium to Supreme quality large square bales at edge of field 280.00-305.00. Square and round bales, Good quality at edge of field 230.00-250.00. Grinding hay at edge of field 225.00-230.00.

**Grass Hay Central Oklahoma:**

Prices steady in relatively light test. Large round bales of good quality Bermuda 100.00-120.00 per bale on 5 X 6 bales. Prairie hay delivered from out of state 160.00-200.00 per ton. Small square bales good quality Bermuda and Bermuda mix \$8.00-9.00 per bale. Prairie hay 6.00-9.00 per bale.

**Western Oklahoma:** No sales confirmed.

**Eastern Oklahoma:** Prices steady. Good quality Bermuda \$100.00-130.00 by the bale (5X6), no sales confirmed on a per ton basis. Some Fair quality mixed grass offering in 4X5 and 5X5 bales 75.00-100.00 per bale.

Prices are dollars per ton and FOB unless otherwise noted.

Confirmed: 7963 Last Week: 3294 Last Year: 6232  
Compared to last week: Current trades of feeder cattle lightly tested last week, therefore not enough for a good market test. Under-tone is firm though. Feedlot demand moderate to good. Feed-yards very current. Many cattle being put on show-lists with minimum days because cash markets have been higher than the current futures month.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA HAY REPORT  
(12-08-11)**

Hay trade moderate to fairly active and movement improved from last week. Demand very good for dairy and horse quality alfalfa, moderate to good for all other offerings. Grass hay demand moderate to good statewide. Large square bales (alfalfa) continue to be in highest demand and these are becoming increasingly hard to find. The bulk of hay coming from northern states is in round bales but finding plenty of outlets due to the overall shortage. Wheat pasture growth in recent weeks has been encouraging and early grazing opportunities are better than many producers had expected.

**Alfalfa Central Oklahoma:**

Prices steady to firm. Premium quality large square bales delivered 310.00-350.00. Good quality square and round bales delivered 260.00-280.00. Fair quality round bales 230.00-250.00. Most hay sold based on RFV at mostly 1.00 to 1.10 per point plus delivery. Horse hay in small square bales 320.00-360.00.

**Eastern Oklahoma:** Prices firm. Premium quality large square bales not tested. Good quality large round bales 250.00-280.00 delivered. Small square bales 10.00 to 12.00 per bale.

**Western Oklahoma:** Premium quality large square bales at edge of field 280.00-305.00. Square and round bales, Good quality at edge of field 230.00-250.00. Grinding hay at edge of field 225.00-230.00.

**Grass Hay Central Oklahoma:**

Prices steady to 10.00 higher. Large round bales of good quality Bermuda 100.00-130.00 per bale on 5 X 6 bales. Prairie hay delivered from out of state 180.00-210.00 per ton. Small square bales good quality Bermuda and Bermuda mix 8.00-9.00 per bale. Prairie hay 6.00-9.00 per bale.

**Western Oklahoma:** Good quality prairie hay delivered 200.00-210.00. Limited sales Good quality prairie hay 130.00 per bale. Corn stalks 95.00. Soybean stalks limited sales 160.00.

**Eastern Oklahoma:** Prices steady. Good quality Bermuda \$100.00-130.00 by the bale (5X6), no sales confirmed on a per ton basis. Some Fair quality mixed grass offering in 4X5 and 5X5 bales 75.00-100.00 per bale.

Prices are dollars per ton and FOB unless otherwise noted.

**OKLAHOMA DIRECT FEEDER CATTLE SALES  
(12/03-12/08/11)**

Confirmed: 2536 Last Week: 7963 Last Year: 4221

Compared to last week: Current trades of feeder cattle lightly tested again this week. Feeder cattle mostly steady to 2.00 lower. Feedlot demand moderate. Feed-yards very current. Supply included 100 percent over 600 lbs; 64 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA HAY REPORT**  
(12-16-11)

**OKLAHOMA DIRECT FEEDER CATTLE SALES**  
(12/10-12/16/11)

Hay trade and movement moderate to active. Demand very good for dairy and horse quality alfalfa, good for all other offerings. Grass hay demand moderate to good statewide. Demand for trucks continues to be very high and availability issues still troubling buyers and brokers. Wheat pasture development is progressing well in central Oklahoma as well as some parts of western Oklahoma.

Confirmed: 5195 Last Week: 2536 Last Year: 3500

Market News continues to maintain an online hay directory for both in-state and out-of-state hay producers. The directories are on the ODAFF homepage at [www.oda.state.ok.us](http://www.oda.state.ok.us). Producers wishing to list hay are encouraged to call at 1-800-580-6543 or email [jack.carson@ag.ok.gov](mailto:jack.carson@ag.ok.gov).

Compared to last week: Feeder steers steady to 2.00 lower. Limited numbers of current trades for heifers sold steady. Demand very good for heifers; moderate for steers. Weather lately has been mostly cloudy and cool and this creating a problem with bloat for cattle turned out on wheat pasture. Light rain showers continue to fall almost biweekly and this finally putting a slight dent into this year's drought. Supply included 91 percent over 600 lbs; 55 percent heifers.

**Alfalfa Central Oklahoma:**

Prices steady to firm. Premium quality large square bales delivered 310.00-350.00. Good quality square and round bales delivered 260.00-280.00. Fair quality round bales 230.00-250.00. Most hay sold based on RFV at mostly 1.00 to 1.10 per point plus delivery. Horse hay in small square bales 320.00-360.00.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**Eastern Oklahoma:** Prices firm. Premium quality large square bales not tested. Good quality large round bales 250.00-280.00 delivered. Small square bales 10.00 to 12.00 per bale.

**Western Oklahoma:** Premium quality large square bales at edge of field 280.00-305.00. Square and round bales, Good quality at edge of field 230.00-250.00. Grinding hay at edge of field 225.00-230.00.

**Grass Hay Central Oklahoma:**

Prices steady to 10.00 higher. Large round bales of good quality Bermuda 100.00-130.00 per bale on 5 X 6 bales. Prairie hay delivered from out of state 180.00-210.00 per ton. Small square bales good quality Bermuda and Bermuda mix 8.00-9.00 per bale. Prairie hay 6.00-9.00 per bale.

**Western Oklahoma:** Good quality prairie hay delivered 200.00-210.00. Limited sales Good quality prairie hay 130.00 per bale. Corn stalks 95.00. Soybean stalks few sales 160.00-165.00.

**Eastern Oklahoma:** Prices steady. Good quality Bermuda \$100.00-130.00 by the bale (5X6), no sales confirmed on a per ton basis. Some Fair quality mixed grass offering in 4X5 and 5X5 bales 75.00-100.00 per bale.

Prices are dollars per ton and FOB unless otherwise noted.
