OKLAHOMA HAY MARKET REPORT
12-17-21

Receipts: 1,967 Last Reported: 2,806 Year Ago: 912
Compared to the last report: Not much has changed, hay continues to be steady for much of the state with good demand, while movement is beginning to raise more. With the mild weather conditions and much needed moisture the cattle are still hanging on to their free-standing grass as a resource. When compared to more climatically challenging conditions hay will then become the main resource. We continue to be in dry condition in most of the state according to the Mesonet. *** The next report release will be January 7th. ***
