OKLAHOMA HAY MARKET REPORT
1-7-22

Receipts: 1,130 Last Reported: 1,967 Year Ago:1,400
Compared to last report: Weather continues to stay warm temperatures; hay is slow to steady. The warm weather conditions allow the cattle to still hang on to the free-standing grass. They are not taking to the hay when compared to more climatically challenging conditions. Hay remains the main feed resource due to prices of feed. We are currently in severe drought in the east and an extreme drought central west according to the Mesonet. The next report release will be January 21th.
