**OKLAHOMA HAY MARKET REPORT**  
2-4-22

Receipts: 2,401 Last Reported: 3,174 Year Ago:1,864  
Compared to last report: Winter weather entered the state which allowed the hay market to stay steady. We still need more moisture in our state to continue to help with the drought conditions and wheat pastures. Thus far, according to the Mesonet for most of the state is experiencing abnormally dry conditions or worse. In the Oklahoma Panhandle the drought conditions are exceptional, Western Oklahoma is in extreme drought, Central Oklahoma is mainly in a severe drought, and Eastern part of Oklahoma is in a severe drought. Unfortunately, on the 6-to-10-day precipitation outlook map shows Oklahoma is likely to receive below-normal precipitation levels for this time of year. The 6-to-10- day temperature outlook map shows higher-than-normal to normal temperatures are likely for most of the state.\*\*\* The next report release will be February 18th. \*\*\*
