**OKLAHOMA HAY MARKET REPORT**  
3-4-22

**Receipts:** 3,692 **Last Reported:** 2,237 **Year Ago:** 1,574  
Compared to last report: Due to the lack of moisture even with the winter weather storm it has allowed the hay market to increase in the amount of trades. Oklahoma is still in an abnormally dry or worse condition. We did receive some moisture but not enough to allow change in the drought conditions. The Oklahoma Mesonet shows just over half of the state in an extreme drought condition or worse and much of this being primarily in the western part of Oklahoma.
