OKLAHOMA HAY MARKET REPORT
3-25-22

Receipts: 4,429 Last Reported: 3,692 Year Ago: 0

Compared to last report: As we wrapped up the winter season hay has increased and has become more of a demand in parts of the state as hay is the only forage resource due to lack of moisture of any free-standing grass. In better news we have started in the spring season and we have been able to receive much needed moisture this past week. However, we still need much more moisture to go to pull us out of the drought. Central to central west is still in an extreme to exceptional drought. For the east part of the state is beginning to be in the moderate drought to none in the drought conditions. *** The next report release will be April 8th. ***
