

# Farmer's Market Price Report OSU-OKC

**May**  
**2021**

## Market Comments:

First market report of the season. Longer cooler temperatures has provided for plentiful items such as leafy greens, radishes and sweet potatoes. Limited supplies of some input items has created higher input cost, thus forcing prices slightly higher. This didn't seem to bother the consumer as several shoppers were out filling their bags with goodies. We have added a new section of Bison products and hope to add some beef items by the next report. The next report will be in June. *Please note: Sizes of bunches, cartons, bundles, and other containers used at the farmers market may vary vendor to vendor.*

# Farmer's Market Price Report OSU-OKC

## June

### 2021

#### Market Comments:

June weather began extremely hot and humid. The end of the month brought heavy rains causing the normal OSU-OKC Farmers Market to cancel the last week of the month. A limited few vendors moved to the enclosed Farmers Public Market. Thus items are limited. Weather continues to plague growth of some items like tomatoes as the lack of sun has created slow growth or maturity. Also it is noted the growing season was delayed due to the late freeze. Hopefully next month will bring a plethora of fruits and vegetables. Please Note: *Sizes of bunches, cartons, bundles, and other containers used at the farmers market may vary vendor to vendor.*

## Farmer's Market Price Report OSU-OKC September

**2021**

**Market Comments:**

Late summer/early fall has been tough for farmers. Hot dry conditions continue and watering systems are working overtime. Some fall items are making their first appearance with fall squash varieties as well as some pumpkins for pie making. Peppers continue to be in plentiful supply. Only one more month of Farmers Markets as the end of October the out door Farmers Markets will close for the season. The OSU-OKC Farmers market will be closed the first weekend in October due to the Memorial Marathon.

# Farmer's Market Price Report OSU-OKC

## October

### 2021

**Market Comments:**

Products have slimmed down this last month of Farmers markets. Cool weather varieties such as lettuce remain plentiful. Many varieties of peppers still available as well and those were as follows: Sweet Deliah, Mama Mia Gallo, Sweet Cubanelle, Sweet Banana Peppers, Hot Chile, Pablano and Jalepenos. After October many of the vendors will continue to sell their products on line. The next Farmers Market report will be available Spring of 2022. April or May, depending on the growing season.
