

2022-2023

SEEDLING CATALOG

TREE & SHRUB SEEDLINGS FOR CONSERVATION

<https://ag.ok.gov/seedling-store>

ORDERING INFORMATION

About The Seedlings

OFS sells bare-root and containerized seedlings. Bare-root seedlings are seedlings with uncovered roots, which require extra care to keep the roots moist. Containerized seedlings are grown in small tubes. All seedlings are one or two years old, and are grown to allow for quick planting. OFS offers seedlings from January to late March. All orders are on a first-come, first-served basis. Customers are encouraged to order early, as supplies are limited and some species will sell out. For more information or assistance, please call the Forest Regeneration Center at (405) 288-2385, ext. 101.

Conditions of Sale

Oklahoma Forestry Services grows and sells seedlings for conservation purposes only. They cannot be resold as live plants. Violation of these conditions will result in a \$50/tree penalty and/or loss of opportunity to purchase seedlings for up to 5 years. By purchasing these seedlings, you are accepting agreement of the above “Conditions of Sale.”

Ordering and Payment

You can order seedlings online at <https://ag.ok.gov/seedling-store> or by phone at (405) 288-2385, ext. 101. Bare-root seedlings are sold in bundles of 50 and the minimum order is 100. Minimum orders for containers are 50 for evergreens and 25 for hardwoods. Credit card orders assume the cardholder agrees to advance payment in amount of the grand total and to perform obligations set forth in the Cardholder’s agreement with the issuer.

Cancellations and Refunds

Orders cancelled before January 1, will be refunded less a \$20.00 processing fee (allow 4 to 6 weeks for refund). No refunds will be made after January 1st.

Receiving Orders

Pick-up orders are available on Fridays at FRC only. Customers will be notified one week before. If seedlings are not picked up within 2 weeks of notice, survivability will be affected.

The FRC is located four miles south of Norman. Take the Goldsby/Washington Exit (104) from I-35 and follow the posted signs. The FRC is just south and east of the David Perry Airport, east of I-35.

All shipped orders are delivered by FedEx. Shipping fees depend on the number of seedlings you order. Please contact FRC for shipping calculation. An email will be sent to customers when their seedlings are shipped from FedEx. If your order is not received within seven days of email, customers are asked to call the Forest Regeneration Center. **We do not ship containerized seedlings. Containerized seedlings must be picked up at FRC.**

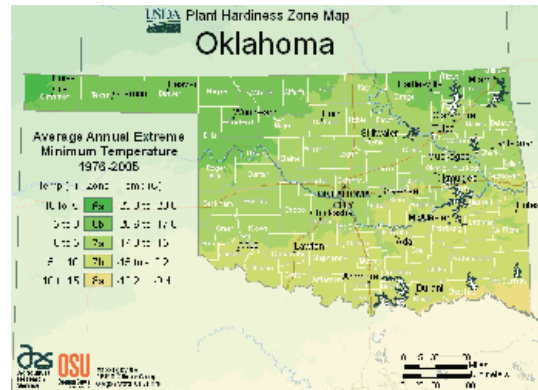

SPECIES SELECTION

Oklahoma Forestry Services recommends planting the right tree in the right place. Conditions that must always be considered are: the reason/purpose for planting the tree, type of soil, hardiness zone and amount of annual rainfall.

USDA Hardiness Zones

The primary guide to determine plant hardiness is the USDA Hardiness Zone Map, which divides the United States into ten zones based on average minimum temperatures. Each zone is then subdivided into A and B sections. A plant is said to be hardy if it can tolerate the lowest average winter temperature that occurs in a zone. Hardiness is affected by duration and intensity of sunlight; amount and timing of rainfall; length and severity of summer drought; soil characteristics; slope; frost occurrence; humidity; and cultural practices.

For more information or questions contact your nearest forester for advice. See back page for contact information.

Forest Trees of Oklahoma

by Dr. Elbert Little

- If you pick them up, the cost is \$4.00.
- If we mail them to you, the cost is \$8.00.

CONSERVATION PACKAGES

We are offering three conservation improvement packages this year. Each package contains 25 seedlings of four different species for a total of 100 seedlings. These trees and shrubs were selected specifically to enhance conservation practices on your property. Some species may be substituted by FRC depending on availability.

Choose from 3 Different Packages:

DEER HABITAT PACKAGE

(Osage Orange, Bur Oak, Persimmon, and Sand Plum)

RURAL WILDLIFE HABITAT PACKAGE

(Red Mulberry, Shumard Oak, Smooth Sumac, and Fragrant Sumac)

POLLINATOR PACKAGE

(Redbud, Red Mulberry, American Plum, and Sand Plum)

All Conservation Packages are \$125.00.

BARE-ROOT SEEDLINGS

- Minimum bare root seedling order is 100 seedlings. Seedlings are sold in bundles of 50.
- Orders of 50 to 450 seedlings, seedling cost is \$1.00 each.
- Orders of 500 to 950 seedlings, seedling cost is \$0.60 each.
- Orders of 1,000 to 3,000 seedlings, seedling cost is \$0.50 each.
- Orders of more than 3,000 seedlings, contact the Forest Regeneration Center for prices at 1-405-288-2385, ext. 101

CONTAINERIZED SEEDLINGS

EVERGREEN CONTAINERS

Seedlings are grown in tubes that are 2 inches in diameter and 7.5 inches long. These seedlings are especially well-suited for plantings on harsher sites and should provide better survival than bare-root seedlings. The table below shows species available with descriptions and recommended usage. Containerized Species are \$2.00 per seedling. Minimum order is \$100.00. Seedlings are only sold in single species flats of 50. These seedlings are only available to pickup after March 1 at FRC.

Common Name	Hardiness	Moisture Zones	Tolerates Soil Type	Height At Maturity
Cypress, Arizona (<i>Cupressus arizonica</i>)	7-8	All	Most	40-60'
Pine, loblolly (<i>Pinus taeda</i>)	6-10	All, but Panhandle	Most	80-100'
Pine, ponderosa (<i>Pinus ponderosa</i>)	5-7	C, W	Dry	40-60'
Pine, shortleaf (<i>Pinus echinata</i>)	5-9	E, C	Sandy - Rocky	60-85'
Pine, Virginia (<i>Pinus virginiana</i>)	4-8	All	Dry	40-80'
Pine, Scotch (<i>Pinus eldarica</i>)	2-7	All	Dry	40-60'
Pine, Mondel (<i>Pinus sylvestris</i>)	6-8	All	Dry	30-50'

HARDWOOD CONTAINERS

Hardwood containers are grown for conservation plantings on smaller acreages. If you are planting a windbreak, wildlife habitat or any other conservation planting, the seedlings are just the ticket. They are grown in containers that are 2 5/8 inches in diameter and 10 inches long. These seedlings are \$5.00 each and are only available in flats of 25 per species. The minimum order is 25 trees. A flat of 25 costs \$125. FRC does not ship containerized seedlings. Containerized seedlings must be picked up at FRC within 30 days of notice.

Common Name (Scientific Name)	Hardiness	Moisture Zones	Tolerates Soil Type	Height At Maturity
Oak, bur (<i>Quercus macrocarpa</i>)	3-9	All	Most	40-80'
Oak, chinkapin (<i>Quercus muehlenbergii</i>)	3-9	E, C	Moist to Alkaline soils	50-80'
Oak, shumard (<i>Quercus shumardii</i>)	3-9	All, but Panhandle	Most	60-80'
Persimmon (<i>Diospyros virginiana</i>)	4-9	All	Moist	40-60'
Redbud, eastern (<i>Cercis canadensis</i>)	4-9	All, but	All	25-40'
Baldcypress (<i>Taxodium distichum</i>)	5-10	All, but Panhandle	Clay & Silt	60-100'
Sweetgum (<i>Liquidambar styraciflua</i>)	5-9	E, C	Moist	60-100'

SUPERIOR PINE GENETICS

The OFS Forest Tree Improvement Center (FTIC), located in Idabel, OK is home to 60 acres of superior pine genetic orchards. Since 1980, the FTIC has been focusing on loblolly, shortleaf, and Virginia pine genetics, under the direction of the western Gulf Forest Tree Improvement Program. These species have been studied and selectively bred to produce optimal seed for seedlings. We are now offering landowners tailored options for their planting needs using our superior genetics. The following are the options for our pine genetics program and are offered in quantities starting at 1,000 and up. For more information on each offering, please call the FRC and speak with the manager 405-288-2385, ext. 102.

LOBLOLLY PINE

OFS will offer three distinct categories of genetics geared for the landowners management needs. We have selected a variety of families with characteristics that focus on the end product at the mill. Depending on the landowners objective, they can select the best option that fits their management plan and budget.

FIBER OPTION

This category contains families that are suggested for trees that will be grown for paper production.

- Elite Fiber option..... \$75/1,000 seedlings
- Advanced Fiber option..... \$75/1,000 seedlings

SAW LOG OPTION

This category contains families that are suggested for trees that will be grown for saw log production.

- Elite Saw log option..... \$95/1,000 seedlings
- Advanced Saw log option..... \$80/1,000 seedlings

DIVERSE OPTION

This category contains families that are suggested for trees that will be grown for ecosystem services production.

- Elite Diverse option..... \$65/1,000 seedlings
- Advanced Diverse option..... \$55/1,000 seedlings

VIRGINIA PINE JUMBOS

OFS will now offer Virginia Pine Jumbos which are geared for landowners looking for a larger seedling to plant for sites that are harsher to grow on.

- Virginia Pine Jumbos..... \$0.50/seedling 1,000-3,000
- Virginia Pine Jumbos..... \$0.45/seedling 3,050+
