

Farmer's Market Price Report OSU-OKC

September

2022

Market Comments:

Compared to the last report: The little rain we did receive helped. It helped with the growth of products, allowing the producers to offer more products to the consumers. Also, without other events going on around the farmers market it allowed more business to the producers and parking for the customers. All in all, it was a good day for both, if we can receive cooler temperatures, and have a fall season it will be even better for the future.

Classification and Varieties	Production Practice	Unit of Sale	Lowest Price	Highest Price
BULBS				
Onion		pound	2.25	
Onion	Natural	pound	4.00	
Black Garlic	Natural	bulb	2 for 10.00	6.00
