CVI OR Bill of Lading/Weigh Bill (date, number/type of animals, owner, hauler, origin and destination)

Semen (all species): No test requirements + No permit requirements

Frequently Asked Questions:

- CVIs shall always be received w/i 30 days of entry; there shall be only one state of destination on a CVI; however, there may be more than one destination city within the same state on a single CVI
- Animals originating from a TB Free Herd replaces Negative TB test w/i 60 days (must include Herd Accreditation Number and Date of last Herd Test within compliance on CVI)
- Virgin Bull Affidavit – statement on CVI signed by owner or manager certifying bull had no potential breeding contact with females
- Cattle with a previous positive Trichomoniasis test or those originating from a positive herd – *refer to staff veterinarian*
- Trichomoniasis test exception – transient rodeo or exhibition bulls with no sexual contact with females and held in a secure facility to prevent contact while in Oklahoma (does not include pasture)
- Trichomoniasis test must include Individual ID by official USDA ear tag
- Oklahoma Cattle Brucellosis Free in 2001
- Zebu, Water Buffalo, Watusi and Yak are considered beef cattle
- Cattle that are pregnant or with calf by their side (pairs) require Individual ID by official USDA ear tag even if they are less than 18 months of age
- Import permits are only required for Cervid, Swine, Bucking Bulls, Rodeo & Event Cattle and Mexican Cattle. If those livestock are listed on an electronic CVI an import permit is not required (does not apply to cervids). Animal Import Requirements must be met and listed on the CVI when utilizing this import permit exception.
- Approved Tagging Sites in Oklahoma = Livestock Markets
- Canadian & Mexican ID tags are considered Official IDs and are unlawful to remove. Do not replace with or add additional US ID tag.
