	<u>YES</u>	<u>NO</u>	<u>N/A</u>
<u>Bird Health</u>			
1. New birds or hatching eggs added to the farm are from another NPIP PT Clean flock or birds tested negative before entry (make list from last 12 months in remarks).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2. Records (log book which include date, name, address & phone number, types of birds) of in-coming and out-going birds or hatching eggs are maintained for 2 years and available for inspector to review.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3. The participating flock, its eggs, and all equipment used in connection with the flock are kept separate from non-NPIP birds.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4. Birds appear healthy	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<u>Pen and enclosures/structures</u>			
1. The immediate vicinity around poultry/pens/enclosures/structures is neat, orderly, sanitary, and with no debris/clutter or overgrown vegetation within 30 feet of pens/enclosures/structures.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2. Pens are sturdy and secure, with no gaps or weak points where birds could escape, or predators could enter.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3. Pen doors/gates or openings of the pen are easy to operate but secure enough to prevent accidental escapes.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4. Bird proof locks or latches are present on the doors/gates.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5. The pen/enclosure provides enough room for the birds to move freely.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6. Ventilation is adequate to prevent the build up of stale air, moisture, and ammonia.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
7. The pen materials are safe for birds, absent of any toxic materials such as lead based paints or treated wood, and safe for birds to peck at.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
8. Enclosures/structures that house birds such as barns or sheds are free from inside debris and not used for storage of other items.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Equipment

- 1. All poultry equipment is sanitary/clean and in good working order.
- 2. Incubator walls, floors, and trays are kept free from debris.
- 3. Hatchers and trays are cleaned and disinfected after each use.
- 4. Tops of incubators and hatchers are kept clean and not used for storage.
- 5. No birds are located in the incubator and hatcher rooms except for the ones inside the incubators/hatchers.

Feed and Litter

- 1. Feed is kept contained in bins and any feed spills are cleaned up to prevent attraction of wild birds, rodents, or other wildlife.
- 2. Litter isn't abnormally wet or soiled.
- 3. Litter removal and replacement is frequent enough to keep ammonia levels normal.
- 4. Litter depth is adequate.
- 5. Recommended product guidelines for litter additives are followed.
- 6. Drinking water and waterer is clean with minimal sediment.

Premises

- 1. Have wild waterfowl been seen on the premise at any time? If yes, is there a biosecurity plan to prevent direct contact of domestic birds with wild waterfowl?
- 2. Are there ponds or other water sources on the premises? If yes, is there a biosecurity plan to prevent access to the area or contact with wild waterfowl?
- 3. Flock owner received 'USDA Defend the Flock' outreach materials.
