

Farmer's Market Price Report OSU-OKC

MAY

2022

Market Comments:

Products were slim due to the brutal drought not allowing more products to grow. Many producers are finding other avenues to try and keep pricing affordable such as changing packaging. We have seen rain far across our state this past month which should help with the drought we are in. The following Farmers Market report will be available in June.

Classification and Varieties	Production Practice	Unit of Sale	Lowest Price	Highest Price
BULBS				
Onions	Organic	bunch	4.95	
Onions	Natural	bunch	4.00

Current year's farmers market reports – ODAFF (ok.gov)

Farmer's Market Price Report OSU-OKC

JUNE

2022

Market Comments:

Compared to the last report: There was an increase in produce items, and producers still doing their best to find different ways to keep production where it is affordable. Rainfall has hindered some farms by getting too much rain causing some products to begin to rot and has slowed down labor in the fields. The following Farmers Market report will be available in July.

Classification and Varieties	Production Practice	Unit of Sale	Lowest Price	Highest Price
BULBS

Farmer's Market Price Report OSU-OKC August

2022

Market Comments:

Compared to the last report: Weather has been a hindrance to the producer's growing their product along with people's attendance. Producers are doing all they can to have quality products for the customer, but temperatures and drought have forced more labor on them. Even with the weather conditions customers that are showing up are very supportive of their local farmers.

Farmer's Market Price Report OSU-OKC September

2022

Market Comments:

Compared to the last report: The little rain we did receive helped. It helped with the growth of products, allowing the producers to offer more products to the consumers. Also, without other events going on around the farmers market it allowed more business to the producers and parking for the customers. All in all, it was a good day for both, if we can receive cooler temperatures, and have a fall season it will be even better for the future.
