OKLAHOMA HAY MARKET REPORT

5-12-23

Receipts: 1640 **Last Reported:** 136 **Year Ago:** 0

Compared to the last report: Hay trade is slow with good demand. Drought is no help when it comes to crops in Oklahoma. Most of the wheat crop will become wheat hay this year. South of I-44 rain has helped their fields grow but has not allowed them to start cutting and bailing hay yet. Oklahoma as a whole is half a cutting behind schedule. Still, no price trends are available at this time. The Oklahoma Mesonet Drought Monitor shows we are at 10.09 percent in exceptional drought, 33.10 percent in an extreme drought, 48.07 percent in severe drought, 52.47 percent in moderate, 60.81 percent in abnormally dry conditions, 39.19 percent that has no drought conditions.

*** The next report release will be on May 26***
