

Oklahoma Forest Heritage Center
New Growth Education Stipend

For Forestry Program Educators

The Oklahoma Forest Heritage Center was established in 1976 for the purpose of supporting and promoting Oklahoma's forestry community. The Forest Heritage Center's goal is to provide quality educational opportunities and experiences in the benefits of sound forest practice with respect to the production of forest products, wildlife enhancement, recreational enhancement, and the environmental benefits of the forest. The Forest Heritage Center provides quality learning experiences in these areas through collaboration with trusted members of Oklahoma's forestry community and its stakeholders.

In a continuing effort to support quality community-based forestry educational opportunities, the Forest Heritage Center sponsors a \$1,000 stipend. The intent of the award is to support the facilitator of the proposed educational program in the implementation of a quality experience for the participants.
