Facility Information

Facility name: _____ CAFO/CSFO # _____

Lagoon name/identifier (if more than one at the facility): _____

Onsite contact name (responsible for land application): _____

Onsite contact phone #: _____

Name of form submitter: _____

Phone #: _____ Email: _____

Current Details – Justification for Emergency Land Application

Today's Date: _____ Current Freeboard Level: _____

(inches to eminent overflow)

Title 35 OAC §'s 17-4-12(b)(3)(C) & 3-14(b)(3)(C) identify the ability for properly designed, constructed, and operated facilities in danger of an imminent overflow due to chronic or catastrophic rainfall to be approved for emergency procedures to land-apply to avoid a discharge.

Please provide a statement justifying why emergency land application of effluent/waste from the Waste Retention Structure (WRS) lagoon is necessary. Include previous weather events and/or maintenance issues that may have contributed to the need for emergency land application.

Include the following copies/documents with your request form to justify proper design, construction and operation of the facility:

- At least the last two (2) months of rainfall records
- At least the last two (2) months of lagoon marker readings
- At least the last two (2) months of lagoon pumping/land application records

I certify under the penalty of law this document was verified and updated under my direction:
