## Oklahoma Production Cost Report (Bi-Weekly)

3-7-25

Compared to the last report (02/21/2025): Fertilizer prices mostly on the rise as temperatures warm and rains begin to fall. Farmers busy getting fields ready to plant and this improving demand. Potash showed a slight decline. Rains moved across the state late Sunday and then again over night Monday. This definitely putting a slight dent in the drought situation. Both farm diesel and propane prices showed slight increases.

## Oklahoma Retail Feed Cost Report (Monthly)

2-7-25

Compared to last report: Feed prices are remaining steady. The price fluctuations are due to new contacts being added to this report. Next month will start new feed contract pricing for the summer months. The temperatures for Oklahoma have been variable all week. Eastern Oklahoma has gotten some good rain in the past couple of weeks. Western Oklahoma has missed the last couple of rains and is in need of some moisture. CME Live and Feeder Cattle closed sharply lower yesterday. Cattle markets have pulled back from the record highs seen last month. Some ports of entry opened this week allowing Mexican cattle to be imported once again
