

Farmers Market Price Report

May - Chandler Farmers Market

2025

Market Comments:

Most produce is still early in the season. The vegetables were fresh and bright in color and sold by bundle not by weight. The meat was sold by weight, frozen, and future orders could be placed.

Farmers Market Price Report Scissortail Park - OKC

June

2025

Market Comment: It was a cool June morning with chances of rain. The rain and over events going on around the farmers market did not allow much movement for the farmers to sale. The summer sales have been good considering they are early in the season. We have had a lot of rain which has helped and hurt the crops. Farmers are doing what they can to produce as much and the best quality for the customers.

Farmers Market Price Report Scissortail Park - OKC

July

2025

Market Comment: It was a warm July morning with chances of rain. The farmers market was very active and the demand was great. The producers of fruits and vegetables wish they had more produce, the rain has helped and hurt them. Most the garden/crop for the producers at the scissortail market have had to replant multiple times just to get flooded out again. They all continue to do to their best to get the food to the customers.

Farmers Market Price Report Scissortail Park - OKC

August

2025

Market Comment: It was a warm August morning. The farmers' market was very active, and demand was great, as we are in the middle of the farmers' market season. We still have more meat this year compared to produce. The rain affected most of the producers who raise fruits and vegetables. Even with the replanting and flooding, they all continue to do their best to get the food to the customers.
