OKLAHOMA MARKET REPORT

Oklahoma National Stockyards 1-26-26

Sales were canceled this week due to a major winter storm that moved across much of the country over the weekend. Locally, it dropped heavy snow and took temperatures well below freezing. Snow will stick around for a while as temperatures are not expected to be above freezing until mid week.

OKLAHOMA HAY MARKET REPORT

1-16-26

Receipts: 1,290 Last Reported: 1,172 Year Ago:3,840

Compared to the last report. After the new year, movement has picked up; it's slow to steady. I would not say it is a turning point for hay growers just yet. Cold weather is beginning to move in. Still do not see any moisture in the near future. Drought worsens; 82 percent of the state has some form of drought.

Trends: No Trends currently.

The Oklahoma Mesonet Drought Monitor indicates that 0 percent of the state is experiencing exceptional drought, 7.44 percent is in extreme drought, 19.94 percent is in severe drought, 71.31 percent is in moderate drought, 82.14 percent is in abnormally dry conditions, and 17.86 percent has no drought conditions.

*** The next report release will be on January 30th ***

Oklahoma Production Cost Report (Bi-Weekly)

1-23-26

Compared to last report: Most fertilizers remained steady. Urea did see a slight increase. Winter time temperatures have returned with forecasted ice and snow across Oklahoma. Dry conditions have limited demand, but with snow on the way and a warming trend expected in early February, many farmers are expected to begin side-dressing their wheat. Farm Diesel increased slightly and propane remained steady.

Oklahoma Retail Feed Cost Report (Monthly)

1-9-26

Compared to last report: Feed prices have adjusted slightly on commodity types feeds. This winter has been unusually mild but very dry. Some areas of Oklahoma received light rain yesterday, which will provide short-term relief for wheat, though soils are drying out quickly with temperatures remaining well above normal. CME cattle futures have risen since the last report. Demand remains very strong for all classes of cattle with prices reaching near-record levels during the first week of sales this year. While cow-calf producers are benefiting from these cattle prices, tightening supplies and strong demand have many in the industry questioning how much futher prices can climb before stocker producers begin to lose money.
