**OKLAHOMA HAY MARKET REPORT**

5-22-26

Receipts: 2,640 Last Reported: 2,745 Year Ago:0

Compared to the last report. Movement is still moderate to steady for this time of year. Looking into the new hay crop. Hay growers are trying to find their footing in pricing trends. Due to the carryover hay, it is less than expected. Oklahoma has received rain all across the state, but it still needs more moisture to help this year's crop. Even with the weather, hay producers are still trying to navigate the weather, pests, and the drought. Different parts of the state are in different phases in their hay production. Rain is much needed in all parts of Oklahoma. Prices for new crop hay are still to be determined. It is still too early to tell what the new crop of grass hay will be. Drought has increased to 99.61 percent of the state that has some form of drought.

The Oklahoma Mesonet Drought Monitor indicates that 3.85 percent of the state is experiencing exceptional drought, 37.31 percent is in extreme drought, 47.07 percent is in severe drought, 82.72 percent is in moderate drought, 99.61 percent is in abnormally dry conditions, and 0.39 percent has no drought conditions.

\*\*\* The next report release will be on June 5th \*\*\*

**Oklahoma Production Cost Report (Bi-Weekly)**  
**5-29-26**

Compared to last report: This report once again showed urea prices decreasing, while liquid nitrogen 32 continued to increase in price. DAP prices have once again increased as domestic production of phosphorus has been reduced, while imports continue to be more expensive to source. Although farm diesel was down in this report, volatility still remains in the market, as one contact decreased their price by 75 cents per gallon while another contact increased their price by 60 cents per gallon.

**Oklahoma Retail Feed Cost Report (Monthly)**  
**5-29-26**

Compared to last report: Feed prices had most slight adjustments. More contacts for cottonseed meal were added to this report, accounting for the bigger price jump. Most of Oklahoma has received some rainfall in the past week but still 37% of the state is in extreme drought conditions. Summertime temperatures are returning across the state this weekend. Negotiated cash trade are in line with the last report a month ago, but remain below the all-time highs of 265 reached a couple of weeks ago. Today's trade ranged from 255 to 258. CME cattle futures traded in the red today, as the market continues to experience significant volatility, with large swings both higher and lower from one day to the next.
