Oklahoma Retail Feed Cost Report (Monthly)
9-18-26

Compared to last report: Winter feed pricing is set to begin next month; however, commodity suppliers have already begun adjusting prices in response to the sharp increase in commodity markets. Cottonseed Meal is once again being sourced from California with the additional freight expense accounting for a significant portion of the increased price. Contacts reported substantial price increases for both alfalfa pellets and soy hulls. Suppliers indicated that securing loads has become increasingly difficult, while limited trucking availability has created an additional challenge in getting those commodities delivered.
