OKLAHOMA HAY MARKET REPORT

10-30-26

Receipts: 4,624 **Last Reported:** 4,018 **Year Ago:**1,980

Compared to the last report, not much has changed; the demand for hay still remains high. We continue to see all types of hay being moved in preparation for fall and winter. Hay movement has slowed down due to the rain.

The Oklahoma Mesonet Drought Monitor indicates that 7.10 percent of the state is experiencing exceptional drought, 26.16 percent is in extreme drought, 66.59 percent is in severe drought, 87.31 percent is in moderate drought, 99.89 percent is in abnormally dry conditions, and 0.11 percent has no drought conditions.

*** The next report release will be on November 13th ***

Oklahoma Production Cost Report (Bi-Weekly)
10-30-26

Compared to last report: Most major fertilizers have increased in price slightly. Widespread rainfall across Oklahoma over the past 30 days has significantly improved wheat pasture, resulting in increased demand for fertilizer. Rising costs of key production inputs used in manufacturing DAP and MAP continue to drive fertilizer production costs higher. These escalating expenses have placed additional financial pressure on manufacturers, reportedly leading at least one U.S. production facility to idle operations. Fuel prices have continued to trend higher over the past 60 days, with farm diesel increasing $0.82 per gallon and propane rising $0.29 per gallon during this period. These higher fuel costs continue to add to operating expenses for agricultural producers.

Oklahoma Retail Feed Cost Report (Monthly)
10-16-26

Compared to last report: October marks the beginning of winter feed pricing, with all feeds moving higher for the winter feeding season. Commodity prices have continued to climb for the second consecutive month, with substantial increases reported across the board. Over the past two months corn gluten has increased 29.00 per ton, wheat midds 47.50, alfalfa pellets 39.50, soy hulls 70.50, and corn 35.00 per ton. Contacts reported being unable to source cottonseed meal, while soy hulls and alfalfa pellets remain increasingly difficult to obtain as supplies continue to tighten. Higher diesel prices, coupled with limited truck availability, continue to present challenges in transporting feed commodities.

Feed
Distributor (Dollars Per Ton)

Class	Sale Type	Package	Price Range	AVG.	Change	DEL Period
